Town of Bow

1989 Annual Report

This 1989 edition of the Bow Town Report is dedicated to the long-time chief of the community's Fire Department, Roger Ordway; due to step down from his management responsibilities after eleven years as Chief.

Roger has seen the department grow from two home-built Ford pumpers and an untrained volunteer force of sixty to six engines and a trained stable of thirty-five certified firefighters. In addition, a top-of-the-line, state-of-the-art pumper tanker is on the way.

Roger has gone from "leather lungs" to smoke masks to pressurized breathing apparatus; from play pipes to automatic "thinking nozzles"; from a "Let it Go Down the Ditch" attitude concerning hazardous waste to a sophisticated plan for monitoring, removal and disposal of those wastes.

Behind every dedicated Fire Chief is a supportive spouse, and Roger is the first to acknowledge his wife's commitment to the department.

From all of Bow's residents, and from those in the Capital Area Mutual Aid Compact, thank you, Roger Ordway, for all you have done.

RECORD OF ANNUAL TOWN MEETING

March 14-15, 1989

Bow, N.H.

Acting Moderator Thomas Webster opened the March 14, 1989 Town Meeting for the legal voters of Bow at 10:00 AM.

The meeting adjourned at 7:00 PM and was reconvened by Moderator Philip Ryan Wednesday, March 15, 1989 at 7:00 PM at Bow Memorial School with the presentation of colours by Bow Brownie Troop 171 consisting of Kristen Kolada, American flag; Andrea Woods, State of New Hampshire flag; Jessica Reid & Meghan Livsey, Color Guard; and Anne Miner, Caller. Their leaders are Vicki Woods and Judi Kolada.

Following the Pledge of Allegiance, Carroll French led us in prayer.

Bill Johnson then presented the Bow Men's Citizen of the year award to Frank D. Hirsch.

Moderator Philip Ryan explained his role as moderator and the concepts/rules of how this meeting would be run.

The results of the Town ballot election were read as follows:

Town Clerk/Tax Collector - one year - Cynthia Batchelder - 1043

Selectman - three years - Eric E. Anderson - 806

Richard D. Hanson Jr. - 234 (withdrew 3/7/89)

Treasurer - one year - John Sheridan - 752

Budget Committee - three years - Richard Bean - 852

John R. Burton III - 763

Library Trustee - five years - Mary Slattery - 973

Trustee of Trust Funds - three years - Cedric Dustin Jr. - 971

Sewer Commissioner - three years - Edwin H. Bardwell - 859

Water Commissioner - three years - Edwin H. Bardwell - 865

The results of the School Board Election were also read as follows:

School Board - three years - Robert Bannister - 526

Angelyn D'Ambruoso - 543

School Board - two years - Betsy B. Miller - 913

ARTICLE #2: Are you in favor of the adoption of seven amendments proposed by the Bow Planning Board for the Town Zoning Ordinance?

Article #2, Section I: Are you in favor of the adoption of Amendment Number 1 of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Deletion of the definitions contained in Section 3.41, 3.42, 3.43 and 5.02 to be replaced by new definitions on Presite Built Housing, Manufactured Housing and Manufactured Housing Park and Manufactured Housing Units, and using these new terms throughout the Ordinance.

YES - 638

NO - 264

Article #2, Section II: Are you in favor of adoption of Amendment Number II of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Defining in Section 3.15 and 3.15A the term “Condominium” and “Conversion Condominium” and adoption of a new Section 5.02 (g) relative to “Conversion Condominium” by special exception.

YES - 604 NO - 305

Article #2, Section III: Are you in favor of adoption of Amendment Number III of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Deletion of the current section 9.04 dealing with off-street parking, to be replaced with new provisions dealing with new off-street parking provisions.

YES - 671 NO - 236

Article #2, Section IV: Are you in favor of adoption of Amendment Number IV of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

A) By adding the words “car wash” to the description of Section 5.02 (b-12).

B) By deleting the words “car wash” from the description of Section 5.02 (b-13).

C) By amending Section 5.02 (c-1-a) to require a special exception for this use in the FA and FB Zones.

D) By amending Section 5.02 (c-1-b) to require a special exception for this use in FA and FB Zones.

E) By amending Section 5.02 (c-1-c) to require a special exception for this use in the FA and FB Zones.

F) By amending Section 5.02 (c-7) to require a special exception for this use in the C, I-1 and I-2 Zones and to prohibit this use in the FA and FB Zones.

G) By amending Section 5.02 (c-8) to prohibit this use in the FA and FB Zones.

YES - 596 NO - 245

Article #2, Section V: Are you in favor of the adoption of Amendment Number V of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Amending the current Sections 3.01, 3.32 and 3.58 relative to the term “Abutter”, “Lot” and “Setback”; deletion of Section 3.13 and Article (17) relative to Cluster Development.

YES - 568 NO - 293

Article #2, Section VI: Are you in favor of adoption of Amendment Number VI of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Providing a new definition of “Buildable Land” in Section 3.08A; deleting the phrase “such as duplexes, apartments and condominiums” from Section 5.02 (a-2) and 14.06 (d); addition of a triple asterisk to the column heading “(Acres)” in Section 6.02 and adding a new footnote to that section which reads “Buildable Land”; amending (d-1) and (d-2) of Section 14.06 (d) to read “Those multi-dwelling uses identified in Section 5.02 (a-2) may be permitted as special exceptions in the “RU” and “R” district subject to the following conditions and safeguards” (d-1) The building height shall not exceed two stories. (d-2) Maximum number of dwelling units for the lot shall be calculated as follows: one unit for the min-

imum 2 acre buildable land for the first unit in each building and 1/2 acre of buildable land for each additional unit in each building.”

YES - 515 NO - 349

Article #2, Section VII: Are you in favor of adoption of Amendment Number VII of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Amending Section 5.02 (d-2) to prohibit commercial television and radio towers from the RU Zone.

YES - 645 NO - 279

ARTICLE #3: Was moved by George Descoteau and seconded by John Swenson. It was voted to establish the traffic signal Capital Reserve Fund for the construction of traffic signalization at the intersection of Knox, White Rock Hill, Logging Hill and Bow Center Roads; further to raise and appropriate the sum of Twenty-Five Thousand Two Hundred Dollars (\$25,200.00) to be placed in said fund, said appropriation to be contingent upon the receipt of Twenty-Five Thousand Two Hundred Dollars (\$25,200.00) by the Board of Selectmen from Bow Commons Associates.

ARTICLE #4: Was moved and seconded. It was voted to raise and appropriate the sum of Ten Thousand Three Hundred Thirty-Three Dollars (\$10,333.00) to be added to the Capital Reserve Funds as indicated.

1990 Highway Plow/Sander	- \$5,000.00
1990 Parks and Recreation Dept. Pick-up Truck	- \$5,333.00

(Recommended by the Budget Committee)

ARTICLE #5: Was moved by Dom D’Ambruoso and seconded by Ellen Fries. It was voted to create a Capital Reserve Fund for replacement of the Rescue Squard vehicle, and to raise and appropriate the sum of Seven Thousand Dollars (\$7,000.00) to be placed in that fund.

(Recommended by the Budget Committee)

ARTICLE #6: Was moved and seconded. It was voted to raise and appropriate the sum of One Hundred Ninety-Five Thousand Dollars (\$195,000.00) for the purchase of a Fire Department pumper/tanker; Twenty-Five Thousand Dollars plus accumulated interest of which will be withdrawn from the Capital Reserve Fund created for that purpose; the remainder to be raised by taxation in the current year.

(Recommended by the Budget Committee)

ARTICLE #7: Was moved and seconded. It was voted to raise and appropriate the sum of Eighty-Nine Thousand Five Hundred Dollars (\$89,500.00) for the following Capital Improvements:

Repair/Restoration of Town Buildings	- \$10,000.00
Replacement Police Cruiser	- 15,500.00
Reconstruction Allen Road	- 40,000.00

Engineering Studies, Page/Brown Hill Intersection	- 10,000.00
Municipal Office Automation	- 14,000.00

(Recommend by the Budget Committee)
(Pursuant to the Capital Improvement Plan)

ARTICLE #8: Was moved and seconded. It was voted to authorize the Board of Trustees, Baker Free Library, to expend funds and accrued interest from the Capital Reserve Fund created for that purpose, in the amount of Seven Thousand Four Hundred Sixty-Seven Dollars (\$7,467.00) (Article 10, 1966 Town Meeting) for repair of the roof of the Library.

(Recommended by the Budget Committee)

ARTICLE #9: Was moved and seconded. It was voted to authorize payment in the amount of Fifty-Eight Thousand Six Hundred Seventy Dollars (\$58,670.00) for its proportional use of the Concord Landfill from January 1, 1989 through March 3, 1989, and its share of the closure costs of said landfill (This is the first of three equal payments).

(Recommended by the Budget Committee)

ARTICLE #10: Was moved and seconded. It was voted to authorize removal of all accrued interest from the so-called Dry Bridge Capital Reserve Fund to be applied to payment of the Town's share of said bridge reconstruction.

(Recommended by the Budget Committee)

ARTICLE #11: Was moved and seconded. This article to see if the Town will raise and appropriate an estimated sum of Two Thousand Five Hundred Fifty-Two Dollars (\$2,552.00) for participation in a regional, one-day Household Hazardous Waste Collection Program. This program will enhance the proper disposal of hazardous household products such as paint thinners, solvents, pesticides and the like WAS AMENDED TO: to raise and appropriate an amount not to exceed \$2600.00 (Twenty-Six Hundred Dollars) for participation in a regional, one-day household hazardous waste collection program. This program will enhance the proper disposal of hazardous household products such as paint thinners, solvents, pesticides and the like. This article *passed as amended*.

ARTICLE #12: Was moved and seconded. This article to see if the Town will vote to raise and appropriate the sum of One Hundred Thousand Dollars (\$100,000.00) to be placed in the Capital Reserve Fund for Town Reappraisal, to fund this action by rescinding the action taken through Article 12 at the 1988 Town Meeting, that Article raising and appropriating the sum of One Hundred Thirty Thousand Dollars (\$130,000.00) for the purchase of land; said land no longer available for purchase WAS AMENDED TO: I move that the Town raise and appropriate the sum of \$100,000.00 to be placed in the Capital Reserve Fund for Town Reappraisal to be funded by rescinding the action taken under Article 12 of the 1988 Town meeting designating \$130,000.00 for purchase of land which

is now no longer available, and that the Selectmen be named as agents for the Town to handle expenditure of said Capital Reserve Fund whenever the Town shall vote to authorize its use. This Article *passed as amended*.

ARTICLE #13: It was voted to authorize the Treasurer, with the approval of the Selectmen, to appoint a Deputy Treasurer, in accordance with RSA 41:29-A. Said Deputy shall be sworn, shall have the powers of the Treasurer, and may be removed at the pleasure of the Treasurer. Compensation shall be determined by the Selectmen.

(Recommended by the Budget Committee)

ARTICLE #14: It was voted to discontinue and relinquish all interest in Old Logging Hill Road, so-called, a Class VI highway, from its beginning on the current Logging Hill Road to its end on White Rock Hill Road, pursuant to RSA 231:43.

ARTICLE #15: Was moved and seconded. It was voted to rescind the action taken under Article 25 at the 1977 Town Meeting; said article separating the Bow Rescue Squad and the Bow Fire Department; thereby enabling the voluntary merger of that Squad and Department in 1989.

ARTICLE #16: Two petitions were received requesting this article be voted by a ballot vote.

This article was moved and seconded. An *amendment* to change “*The Town*” will have to assume full responsibility for maintenance once the sewer is constructed and accepted by the Town “*TO: The Sewer Users* will have to assume full responsibility for maintenance once the sewer is constructed and accepted by the Town” *passed*. So, by a ballot vote of 129 - yes and 118 - no it was voted to accept, as a donation from Bow Commons Associates, the construction of a sewer line on a portion of Logging Hill Road, from its beginning a distance of approximately 1.1 miles; said sewer to be constructed under the terms and conditions specified in a signed agreement between Bow Commons Associates and The Bow Sewer Commission dated November 7, 1988. The sewer users will have to assume full responsibility for maintenance once the sewer is constructed and accepted by the Town.

ARTICLE #17: It was voted to rescind that portion of the action taken on Article 14 of the 1971 Town meeting, an article which charged the road agent, under the direction of the Selectmen, for the care and maintenance of . . . all public cemeteries within the Town, as authorized by RSA 245:7; the balance of said article remaining in effect.

NOTE: Due to typographical error, original warrant has “Article 14”, of the 1972 Town meeting instead of 1971 Town meeting.

ARTICLE #18: Was moved and seconded. By a ballot vote of 196 - yes and 5 - no, it was voted to adopt the provisions of RSA 80:58-86 for a real estate

tax lien procedure. These statutes provide that tax sales to private individuals for non-payment of property taxes on real estate are replaced with a real estate tax lien procedure under which only a municipality or county where the property is located or the State may acquire a tax lien against land and buildings for unpaid taxes.

(Petitioned article)

ARTICLE #19: Was moved and seconded. By a ballot vote of 103 - no, 97 -yes, and 1 respectfully abstaining, this article to see if the Town will vote to rescind the action taken at the 1967 annual meeting (under Article 23 of the warrant thereof) establishing a board of Sewer Commissioners pursuant to RSA 252:19; and to transfer to and vest in the Selectmen the duties and powers of the Town with respect to common drains, sewers, sewer systems and sewage treatment facilities that are conferred upon mayors and aldermen in cities by RSA 149-I was *DEFEATED*.

(By Petition)

ARTICLE #20: Was moved and seconded. This article to see if the Town will vote to designate Putney Road, between its beginning at Brown Hill Road to the Dunbarton line, as a scenic road, with no work to be undertaken on it other than the maintenance outlined in RSA 231:158 allowed without the prior written consent of the *Bow Conservation Commission* was *DEFEATED* by a standing vote of 79 no, 56 yes. However an amendment to see if the Town will vote to designate Putney Road, between its beginning at Brown Hill Road to the Dunbarton line, as a scenic road, with no work to be undertaken on it other than the maintenance outlined in RSA 231:158 allowed without the prior written consent of the *Bow Planning Board* *PASSED*.

ARTICLE #21: It was voted to authorize the Selectmen to borrow money in anticipation of taxes.

ARTICLE #22: An amendment to delete \$30,000 for a town manager from the total budget was *DEFEATED*.

After adding \$2,600.00 (see Article 11) a total budget of \$2,804,553.00 was passed.

ARTICLE #23: There were no reports from standing committees. However Mark D'Ambruoso spoke on a recycling program he attended explaining the positives and hoping that the Town would give it some consideration next year.

ARTICLE #24: There being no further business, the meeting adjourned at 11:05 PM.

CYNTHIA BATCHELDER
Town Clerk

SELECTMEN'S MESSAGE

As we end 1989 and begin the first year of the final decade of the 20th century, we can all be proud of our Town, employees and citizen volunteers, who serve unselfishly on all the boards, commissions and committees. The Selectmen would like to thank all those who make our Town such a wonderful place to live, work and play. We have completed many projects in 1989. We would like to address some of them.

In October, Bow hired its first Town Manager to manage the Town professionally. Mr. Albert St. Cyr comes to Bow from the Town of Barrington, where he served as Town Manager for two years. We would like to welcome him to Bow and wish him and his wife Berta the very best.

In the early spring, work continued on the River Road dry bridge. By late summer the work was completed. It is now a structure, many years in the planning, which enhances our road system. We thank the many citizens, too many to mention by name, who worked so diligently over the last 15 years to accomplish this task. Safe access to the lower end of River Road is now a reality. Additionally, the sharp curve on the Allen Road was reconstructed by our Town crews. We would like to thank our Road Agent "Chum" Cleverly and his crews for the fine job.

During the year the transfer station took on a new look. We installed a second compactor to end trash overflow on the weekends and thus end the need for an open 20 yard container. Thanks to JoEllen Thompson and her committee, recycling began in Town. Thanks go not only to the recycling committee but to the citizens of the Town who have supported this undertaking. During its few months of operation it has been a paying operation and we hope that it will continue to have the support of the citizens.

Unseen in town, but in operation, is the trash to energy plant in Penacook. All of the trash which finds its way into Bow's compactors is transported to this facility, rather than to the landfill operation in Concord.

The Town continues to implement the plan for expanding computer use in the various Town offices. In 1989 a work station was installed in the office of the Building Inspector. Property cards can now be added to the computer inventory. A second work station, with appropriate word processing software was installed for the Town Manager's Secretary.

During the year our Road Agent attended a course at UNH which provided him with techniques to do an inventory/study on the road system in Town. With the use of a loaned laptop computer and associated equipment, the road agent completed the project in October. The Town now has in its possession, a document that can be used as a guide to the maintenance and/or reconstruction of Town roads.

In this year's warrant there will be several articles of importance:

Two of these apply to protection of our wetlands and aquifers. These articles are the result of many hours of work by members of the Planning Board and Conservation Commission. They are on the ballot because of our concern for the environment and the protection of our water resources.

We would like to encourage the citizens in Town to continue to volunteer to serve on the various boards, commissions and committees. Forms can be obtained from the Town Manager's Secretary at the Municipal Building.

Recently our Fire Chief, Roger Ordway, informed the Selectmen that he would be retiring as Chief after forty years of dedicated service to the Bow Fire Dept. We would like to thank him for his faithful service to the Department, as well as to the Town.

Finally a thanks to all of our Department Heads and Town Employees who over the past year have addressed the ever increasing demands for Town services. The employees, together with the group of dedicated Town volunteers who serve on the boards, commissions, committees, and post office are truly appreciated.

ALFRED H. WARD, Chairman
SARA H. SWENSON
ERIC E. ANDERSON

A SUMMARY OF THE ZONING WARRANT ARTICLES

At this year's Town Meeting, the voters will be asked to vote on five separate warrant articles which propose various amendments to the Town's Zoning Ordinance. These warrant articles are the result of several months of work by joint committees of the Planning Board, the Zoning Board of Adjustment, and the Conservation Commission with input from the Water Commission (now the Water Committee). The proposals have been approved by the entire Planning Board. This summary is intended to provide the voters with a brief explanation of the purpose and intent of each of the five warrant articles.

One of the proposed zoning amendments asks the voters to approve a complete revision to the portion of the Table of Uses relative to agricultural uses throughout the Town. The existing Table is confusing, and in some instances is contradictory. Without intending to change the uses allowed under the existing Zoning Ordinance, this amendment will provide land owners, the Zoning Board of Adjustment, and the Planning Board with clearer guidance concerning what uses are allowed in what zones.

A second article upon which the voters will be asked to vote describes several minor changes to the boundaries between zoning districts throughout the Town. During their work in recent years, the Zoning Board of Adjustment and the Planning Board have discovered several cases where existing lots are bisected by zoning boundary lines. In order to avoid the confusion arising from what uses would be allowed on what portion of a divided lot, this proposed warrant article will adjust the zoning lines so that all zone boundaries will follow existing lot lines.

A third article which the voters will be asked to approve relates to a complete revision and update of the existing regulations concerning removal of sand and gravel in the Town. Various regulatory changes have occurred on the State and local levels since this portion of the Zoning Ordinance was originally adopted. This article attempts to amend the Ordinance to provide a clear process and procedure for land owners to follow when they wish to receive Zoning Board of Adjustment approval to remove sand and gravel from their property. It also clarifies the scope of the Zoning Board of Adjustment's regulatory review process.

Another proposed zoning amendment requests the voters to adopt an Aquifer Protection Ordinance as part of our Zoning Ordinance. This amendment would establish an Aquifer Protection Overlay District which consists of several prime aquifer recharge or exploration areas, as identified in studies prepared at the request of the Bow Conservation Commission by the engineering firm of SEA Associates. The primary recharge areas and exploration areas are those areas identified by the experts as being most likely to be the prime sites for the location of wells which could serve as a future municipal water supply. Within the district, land uses will be restricted so as to minimize to the greatest extent possible the threat of pollution to the Town's ground water resources. A map depicting the locations of the district boundaries is available at the Municipal Building prior to Town

Meeting and will be available at the Community Building on Town Meeting day for review by the voters.

The last article which the voters will be asked to vote upon is the adoption of a Wetlands Protection Ordinance, which complements the protections contained in the Aquifer Protection Ordinance. There is no longer any dispute that wetlands serve extremely valuable functions including potential aquifer recharge areas, pollution control, flood control, as well as serving a valuable role in our ecosystem. The proposed Ordinance would classify the wetlands as either prime wetlands which deserve the highest level of protection, or all other wetlands which would receive a lower level of protection. The Wetlands Ordinance will give the Zoning Board of Adjustment and the Planning Board the tools they need to restrict or limit development which poses a threat of destruction or pollution of Town wetlands. A map depicting the location of all prime wetlands and all other wetlands in the Town will be available at the Municipal Building until Town Meeting, and will be available at the Community Building on the day of voting.

All of the proposed zoning amendments have been reviewed by the Planning Board and have been the subject of two Public Hearings. The Planning Board has approved each of the proposed amendments and recommends their adoption by the Town. Should any citizen have any questions concerning any of the ordinances, they are encouraged to contact any member of the Planning Board.

TOWN WARRANT

1990 Meeting of the Town of Bow The State of New Hampshire

To the Inhabitants of the Town of Bow, in the County of Merrimack in said State, qualified to vote in Town affairs.

You are hereby notified to meet at the Bow Community Building in said Bow on Tuesday, the 13th day of March, 1990, at 10 o'clock in the forenoon to act upon the subjects hereinafter set forth. The voting on Articles 1 and 2 will be by official ballot, and the polls shall be open for balloting at 10 o'clock in the forenoon and shall not close before 7 o'clock in the evening.

You are hereby notified, in accordance with the provisions of RSA 39:2-a, adopted at the 1980 Annual Meeting of the Town of Bow, to meet at the Bow Memorial School in said Bow on Wednesday, the 14th day of March, 1990 at 7 o'clock in the evening to consider the remaining Articles of the Warrant.

1. To choose by non-partisan ballot the following Town Officers:

One Selectman for three years
A Moderator for two years
A Supervisor of the Checklist for six years
A Town Treasurer for one year
A Town Clerk/Tax Collector for one year
Two members of the Budget Committee for three years
One member of the Budget Committee for one year
One Library Trustee for five years
One Library Trustee for one year
One Trustee of the Trust Funds for three years

2. Are you in favor of the adoption of three amendments proposed by the Bow Planning Board for the Town Zoning Ordinance (action by Official Ballot)

1. Are you in favor of the adoption of Amendment Number I of the Bow Zoning Ordinance, as proposed by the Planning Board, as follows:

Delete Section 5.02 (f) and substitute in its place the following:

(f) Rural and Agricultural RU R C I-1 I-2 FA FB CIV INST

(f-1)

Agricultural solely for personal
uses, but excluding grazing, care
or keeping of animals.

X X X X X X X X X

(f-2)

Agricultural for commercial uses, but excluding grazing, care or keeping of animals.

x S x x x S S x x

(f-3)

Agricultural which involves grazing, care or keeping of animals solely for personal use.

x S S S S S S S S

(f-4)

Agricultural which involves grazing, care or keeping of animals for commercial use, but excluding swine and poultry.

x S S S S S S — —

(f-5)

Agricultural which involves commercial raising swine and poultry.

S S S S S S S — —

(f-6)

Stables solely for personal use with stalls for up to 4 horses

x x S S S S S S S

(f-7)

Commercial stables with stalls for up to 4 horses and stables solely for personal use with stalls for over 4 horses

x S S S S S S S S

(f-8)

Commercial stables with stalls for over 4 horses

S S S S S S S S S

II. Are you in favor of amending the Town Zoning Map by relocating the boundaries of certain zoning districts as follows:

(a) Redesignate the portion of the following lots on Albin Road and Melanie Lane which lie in the Rural (RU) Zone as Residential (R) Zone -Block 4, Lots 75-D, 75-E, 75-F, 76, 76-A, 76-B, 76-C, 76-D, and 76-E.

(b) Redesignate the portion of the following lot which lies in the Residential (R) Zone to Rural (RU) Zone - Block 4, Lot 45.

(c) Redesignate the portion of the following lot which lies in the Rural (RU) Zone to Limited Industrial (I-1) Zone - Block 5, Lot 42.

(d) Redesignate the portion of the following lots on Gordon Road and Route 3A which lie in the General Industrial (I-2) Zone to Commercial (C) Zone - Block 2, Lots 185-B, 186 and 187-F.

(e) Redesignate all of Block 2, Lot 187-A as lying entirely in the General Industrial Zone.

(f) Redesignate the portion of the following lot which lies in the General Industrial (I-2) Zone to Commercial (C) Zone - Block 2, Lot 108-A.

(g) Redesignate Block 1, Lot 58 as lying entirely in the Commercial Zone.

III. Are you in favor of deleting Section 14.06(e) and substituting in its place the following:

“(e) Conditions and Limitations for Removing Soil Materials.

(1) The following definitions apply to this section:

(A) Excavation site: any area of contiguous land in common ownership upon which excavation may take place.

(B) Earth: sand, gravel, rock, soil or construction aggregate produced by quarrying, crushing or any other mining activity or such other naturally-occurring unconsolidated materials that normally mask the bedrock.

(C) Excavation: means either a land area which is used, or has been used, for commercial taking of earth, including all slopes, or the taking of earth, as the context requires.

(D) Contiguous: land whose perimeter can be circumscribed without interruption in common ownership except for roads or other easements, in a single town.

(E) Regulator: The Zoning Board of Adjustment.

(2) APPLICATION FOR PERMIT

Any owner or owner's designee shall, prior to excavation of his land, apply to the Regulator for a permit for excavation. The applicant shall also send a copy of the application to the Conservation Commission for written comments. The application shall be signed and dated by the applicant, shall conform to the provisions of this section and shall contain all information required by RSA 155-E:3 and at least the following information:

(A) The names and addresses of the owner of the land to be excavated, the person who will actually do the excavation and all abutters to all of the owner's or applicant's land which is contiguous with the proposed excavation site.

(B) A sketch and description of the location and boundaries of the proposed excavation, and the number of acres to be involved in the project.

(C) A sketch and description of the proposed access to the excavation site and the visual barriers which will be provided during the proposed excavation.

(D) The breadth, depth and slope of the proposed excavation and the estimated duration of the project.

(E) The elevation of the highest annual average ground water table within or next to the proposed excavation.

(F) A plan for the restoration of the area affected by the excavation. Such plan shall comply with the provisions of RSA 155-E and shall include or provide at a minimum:

- i. A detailed written explanation of the restoration plan.
- ii. A diagram, acceptable to the Regulator, showing the restored topography and drainage at the completion of the restoration.
- iii. A written report and diagram explaining the phasing of site restoration showing designated areas, and completion dates for fully depleted areas, if the site is not to be restored all at once.
- iv. Seeding and mulching specifications.
- v. Vegetation suitable to prevent erosion and soils suitable to sustain such vegetation, except for exposed rock ledge.
- vi. Removal of all debris resulting from the excavation.
- vii. All slopes shall be graded to natural repose for the type of soil of which they are composed.
- viii. Any standing bodies of water created in the excavation project that may constitute a hazard to health and safety shall be eliminated unless the Regulator specified different restoration.
- ix. Such other information as the Regulator may require.

(3) APPLICATION FOR AMENDMENT

When the scope of an existing permitted excavation is proposed to be altered so as to affect either the size or location of the excavation, the rate of removal of earth, or the plan for restoration, the owner shall submit an application for amendment of his excavation permit. An application for amendment shall be subject to the same application requirements and approval procedures as provided for a new excavation permit with the addition that an inspection of the current site must be made by the Regulator before the amendment is granted.

(4) DURATION OF PERMIT

The Regulator may issue a permit to remove solid materials for a period of up to three (3) years duration. The Regulator may require brief written reports on an annual basis from the permit holder outlining the degree of compliance with the conditions of the permit.

(5) PUBLIC HEARINGS

The Regulator may grant to the applicant conditional approval subject to a public hearing being held on the proposal. After the Regulator conditionally approves an application for an excavation permit, a public hearing shall be held on such decision or any matter determined thereby. A notice of said hearing shall be sent to all abutters, as well as the Conservation Commission, by certified mail, and shall specify the grounds for the hearing as well as the date, time, and place, all as required by RSA 155-E. All costs incurred for the public hearing shall be the responsibility of the owner or agent acting on behalf of the owner and payable prior to the hearing. Following the public hearing, an excavation permit shall be issued if the Regulator determines that a permit is warranted. Such permit may be issued subject to conditions established by the Regulator. Upon disapproval of an application for an amendment to an excavation permit, the Regulator shall state the reasons for denial, in writing, to the applicant. The regulator may order a public hearing to review the conditions of or the continuance of the permit if a Cease and Desist Order has been issued by the Building Inspector or there has been a valid complaint presented which in the opinion of the Regulator warrants investigation and a hearing.

(6) PERMIT FEE

The Regulator may charge the applicant a Permit Fee of up to Fifty Dollars (\$50.00) for a permit or an amended permit issued under this Section. The Regulator may also charge the applicant an Inspection Fee of Fifty Dollars (\$50.00) per inspection per permit to cover the costs of inspections deemed necessary to verify compliance with the permit. In addition, the applicant will be responsible for the payment of costs of all engineers or professionals hired by the Regulator to advise the Town with respect to any proposed application to verify compliance with the terms of the permit. If the applicant fails to pay any fee described above, the Regulator may revoke the relevant permit.

(7) DETAILS OF APPLICATIONS

The Regulator shall require detailed grading plans showing both original ground and final grades after excavation if the soil removal operation is

particularly complex or of such scale and duration to warrant same. All plans must be upgraded at least every three (3) years or as directed by the Regulator.

Before a permit is issued, the owner shall show that the proposed excavation will comply with the following:

(A) All loam and topsoil to be stripped and piled and respread to a minimum depth of four (4) inches of loam evenly on the completed pit, or in accordance with an alternate plan approved by the Regulator.

(B) All finished slopes to be not steeper than two (2) horizontal to one (1) vertical. The proposed grade of the permit area shall have a minimum gradient of one percent (1%).

(C) No excavation shall be made below the grade of adjacent streets where feasible. In any case, a minimum buffer strip of fifty (50) feet will be required separating the proposed excavation from any street.

(D) Premises to be left at elevations of contours shown on the approved plan. No excavation below these grades will be permitted, except to bury boulders, unless for other good reasons agreed to by the Regulator.

(E) The entire area to be replanted so as to stabilize the land with topsoil and seeding or the planting of appropriate trees. A bond or irrevocable letter of credit will be retained to guarantee said stabilization.

(F) The applicant shall pay for traffic police and/or signage during trucking of materials onto public ways as the Police Chief deems necessary.

(G) Working slopes are to be made safe with no overhanging trees or frost embankments allowed to exist after working hours.

(H) All ways to be cleaned of spilled material at the end of each day or more frequently if required by the Building Inspector.

(I) No more than four (4) acres of the excavation site upon which excavation may take place under a permit may be disturbed without restoring the completed section as outlined in the permit. The only exception will be for access roads. This article applies to excavation sites of eight (8) acres or more. No other areas to be disturbed before inspection by the Regulator.

(J) All property corners shall be staked or clearly marked by a Registered Land Surveyor. Every property line shall be clearly marked at reasonable intervals to prevent encroachment on abutting property.

(K) All stumps are to be chipped or removed from the site in accordance

with law. All rocks are to be removed, buried or used for landscaping in accordance with the restoration plans.

(L) No equipment or vehicles involved in the operation will be operated in the excavation site prior to 6:30 a.m. or on the streets prior to 7:00 a.m. or after 6:30 p.m., Monday through Saturday, or at any time on Sunday, except as otherwise approved by the Regulator.

(M) All vehicles shall be loaded as to prevent any spillage and utilizing dust covers.

(N) The contractor shall provide such dust control procedures as to eliminate any annoyance or inconveniences to the inhabitants.

(O) No part of this operation shall be in violation of any State law.

(P) The applicant must sign an agreement to observe all the conditions of the decision.

(Q) The applicant must furnish the Town with a duly executed and acknowledged easement, permitting its officers, agent and employees to enter upon the subject land for a period beginning with the date of the permit and ending one (1) year after the expiration of the permit for the purpose of putting the land in the condition called for by the permit.

(8) NON-ASSIGNABILITY OF PERMITS

The rights granted to the owner and the duties and obligations assumed by it under a permit are personal in nature. Accordingly, the owner shall not assign or otherwise transfer its rights under the permit, nor delegate the performance of any of its duties and obligations under the permit. Any attempted assignment of rights or delegation of duties under the permit in violation of the provisions of this paragraph shall be void and shall be cause for the immediate revocation of the permit.

(9) REVOCATION

In addition to the reasons described above or below, this permit may be modified or revoked at any time that, in the opinion of the Regulator, the operation is causing undue wear and tear or littering streets or roads in the Town or is causing undue annoyance to its inhabitants or is being carried on in violation of any of the terms and conditions of the permit. The modification or revocation of a permit shall not relieve the owner from any of his obligations under this permit. The Building Inspector may suspend operations pending a hearing by the Board of Adjustment concerning any violation.

(10) SURVEYOR

The Town will select a Registered Land Surveyor to verify the grades of the excavation not more frequently than once per year and the applicant shall pay the complete cost of such services. In the event the applicant fails to pay these costs within thirty (30) days of being billed, the permit will be temporarily revoked and the bonding company will be notified.

(11) SURETY

This permit will not become effective until the applicant furnishes the Town with a bond with a surety company as surety or secured by a deposit of cash or other approved securities satisfactory to the Town counsel in an amount based on the estimated cost of restoration at the completion of the project. The Board may seek the recommendation of the Town Engineer and may employ one (1) independent consultant at the applicant's expense to assist in determining the amount of the bond. The bond is to remain in effect until released in writing by the Board of Selectmen.

(12) PROHIBITED PROJECTS

No permit shall be granted:

A. When the excavation would be unduly hazardous and/or injurious to the public either during or after the pit operation.

B. When the excavation is not permitted by zoning or other applicable ordinances except where the Board of Adjustment feels that a variance is warranted.

C. Where the excavation would substantially damage a known water bearing stratum so designated by the Water Resources Management and Protection Plan developed under RSA 674:2, VIII.

D. When excavation is planned beneath or adjacent to inland surface water in such a manner that a permit is required from the Water Supply and Pollution Control Commission, the Water Resources Board, the special board of Dredge and Fill, or other State and federal agencies with jurisdiction over the premises, but the Board of Adjustment may approve the application when all necessary permits have been obtained.

E. Where the project cannot comply with the restoration provisions of RSA 155-E as amended from time to time.

(13) NON-CONFORMING USES

A. Any exempt excavation as defined in RSA 155-#:2 shall be subject to

all of the terms and provisions of RSA 155-# which are applicable to exempt sites, as well as all of the provisions of this Section 14.06(e) which may be lawfully applied to the excavation. In particular, without a permit such site may not

- (i) If the excavation was a lawful permitted use at that time, be expanded beyond the owner's contiguous land holdings as of August 24, 1979, or
- (ii) Be expanded into present zoning districts where excavations are not permitted.

B. The owner of an exempt facility must file the reports required by RSA 155-E:2 I(d) in a timely fashion, or he will be required to apply for and receive a permit before he may proceed with his excavation.

(14) APPEAL

Following the approval or disapproval of an application for an excavation permit, any interested person may seek a rehearing or appeal the decision of the Regulator in accordance with the provisions of RSA 155-E:9.

3. Shall we adopt the provisions of RSA 72:35, IV for an optional property tax exemption on residential property for a service-connected total disability? The optional disability exemption of \$1,400 rather than \$700. (By Petition-By Ballot)

4. Shall be adopt the provisions of RSA 72:28, V and VI for an optional veterans' exemption and an expanded qualifying war service for veterans seeking the exemption? The optional veterans' exemption of \$100, rather than \$50. (By petition-By Ballot)

5. To see if the Town will vote to purchase a front end loader for \$83,950 utilizing a 5 year lease purchase arrangement and authorizing the withdrawal of \$20,000 plus interest from the Highway Equipment capital reserve fund for the first year's Payment.

(Recommended by the Budget Committee)

6. To see if the Town will vote to authorize the withdrawal of \$35,627 plus interest from various capital reserve funds for the following purposes:

A. Repairs to Town Buildings	\$10,000
B. Tax Map	25,627
TOTAL	\$35,627

(Recommended by the Budget Committee)

7. To see if the Town will raise and appropriate the sum of \$20,000 for three modifications to the Town Garage. These modifications consist of the following:

A. Grease Pit Ventilation	\$ 5,200
B. Charging System for Gasoline Pump	6,000
C. Repairs to Electrical Panel	8,800
TOTAL	\$20,000

(Recommended by the Budget Committee)

8. To see if the Town will vote to raise and appropriate the sum of \$15,000 for the completion of revisions to the Town's Master Plan.

(Recommended by the Budget Committee)

9. To see if the Town will vote to raise and appropriate the sum of \$58,670 for its share of the closure of the Concord Landfill (second of three payments).

(Recommended by the Budget Committee)

10. To see if the Town will vote to raise and appropriate the sum of \$45,928 for the Hall Street/Railroad crossing improvements project. (State of NH will fund all but \$20,928 of this project) The balance will come from encumbered State Aid Reconstruction Funds.

(Not Recommended by the Budget Committee)

11. To see if the Town will vote to raise and appropriate the sum of \$175,000 for Town-wide spraying of the gypsy moth.

(Not Recommended by the Budget Committee)

12. To see if the Town will vote to expend the sum of \$224,870 for the revaluation of the Town and to authorize the reappraisal fund withdrawal of \$94,870 plus interest from the capital reserve fund and authorize the use of \$130,000 from the Town's surplus for this purpose.

(Recommended by the Budget Committee)

13. To see if the Town will vote to raise and appropriate the sum of \$20,000 as matching funds to participate in the State Aid Reconstruction Program with the State of New Hampshire; 2-1 ratio (State to Town) for the repair and improvement of Class I highways.

(Recommended by the Budget Committee)

14. To see if the Town will vote to authorize the Selectmen to expend \$10,000 from encumbered State Aid Reconstruction funds for engineering work on the Albin Road-Logging Hill Road Intersection.

15. To see if the Town will vote to accept a donation of \$15,000 from Mr. Jeff Noury for upgrading South Bow Dunbarton Road and establishing a capital reserve fund for that purpose.

(Recommended by the Budget Committee)

16. To see if the Town will accept a donation of \$30,000 from Mr. Roger Gagne for the upgrading of the Brown Hill Road/Page Road intersection and establishing a capital reserve fund for that purpose.

(Recommended by the Budget Committee)

17. To see if the Town will raise and appropriate the sum of \$16,000 for a pickup truck for use in ballfield and cemetery maintenance and authorize the withdrawal of \$10,666 plus interest from the Highway Equipment capital reserve fund and to raise the sum of \$5,334 by taxation in the current year.

(Recommended by the Budget Committee)

18. To see if the Town will raise and appropriate the sum of \$5,333.00 to purchase a 3/4 ton dump pickup out of the 1990 Capital Improvements Budget for the Parks and Recreation Department.

(By Petition)

19. To see if the Town will vote to establish a single postal clerk position to be filled by one or several different part-time town employees, and to fund that position at a rate approximately equivalent to that of a town clerk's wage. The postal clerk will operate the town's postal facility approximately five hours per day, five days per week, twelve months of the year. The first year's wages will be approximately \$7,500. Once approved and thereafter, the Town Manager will be responsible for selecting and supervising the postal person(s), establishing the duty hours, and setting the hourly rate of pay.

(By Petition — By Ballot)

20. To see if the Town will vote to discontinue and relinquish all interest in a certain section of former state-aided highway being part of the former Wood Hill Road where it crosses lands of the Heirs of Lois H. Langley (Tax Lot 6, Block 3) and Paul Roy (Tax Lot 6-A, Block 3) which section was released to the Town by the State Highway Commissioner, December 30, 1974.

21. To see if the Town will raise and appropriate the additional sum of \$19,687.00 to be expended in fiscal year 1990 by the Bow Parks and Recreation Department for salary for one full-time park maintenance employee, and appropriate supplies and repair equipment.

(By Petition)

22. To see if the Town will vote to limit wage increases for Municipal employees

to no more than 4% per employee per year.

(By Petition — By Ballot)

23. To see if the Town will vote to limit increases in the Municipal budget to no more than 4% per year.

(By Petition — By Ballot)

24. To see if the Town will vote to adopt a line item budgetary process beginning with the budget for 1991.

(By Petition — By Ballot)

25. To see if the Town will vote to proclaim April 22, 1990 as Earth Day.

(By Petition)

26. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

27. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept and expend, without further action by the Town Meeting, money from the State, Federal or other governmental unit or a private source which becomes available during the fiscal year.

28. To see if the Town will vote to accept the budget as presented by the Budget Committee and to determine the amount to be raised and appropriated for Town expenses, and to pass any vote in relation thereto.

(Recommended by the Budget Committee)

29. To transact any other business which may legally come before said meeting.

30. To hear the reports of standing Committees and take any action relating thereto.

Given under our hands and seal the 23rd day of February, in the year of our Lord, 1990.

Selectmen of Bow

**WETLANDS PROTECTION ORDINANCE
ARTICLE XVII:**

WETLANDS CONSERVATION DISTRICT

17.01 AUTHORITY AND PURPOSE:

By the authority granted in N.H. RSA 674:16-17 and 674:20-21, and in the interest of public health, safety and general welfare, the Wetlands Conservation District is hereby established to regulate the uses of lands within the District. It is intended that this article shall:

- (a) Control the development of structures and land uses within the Wetlands Conservation District which would contribute to the pollution of surface and ground water.
- (b) Prevent the destruction of wetlands which provide flood protection, ground water recharge, pollution abatement, and the augmentation of stream flow during dry periods, and which are important for such other reasons as those cited in RSA 483-A:1-b.
- (c) Prevent unnecessary or excessive expenses to the Town to provide and maintain essential services and utilities which arise because of unwise use of water resources.
- (d) Encourage those uses that can be appropriately and safely located in the Wetlands Conservation District.
- (e) Protect potential water supplies and existing aquifers (water bearing stratum) and aquifer recharge areas.
- (f) Preserve and enhance those aesthetic values associated with the water resources zone of this Town.
- (g) Protect wildlife habitats and maintain ecological balances.
- (h) Protect unique and unusual natural areas.

17.02 DEFINITIONS:

- 17.02.01 FEDERAL MANUAL FOR IDENTIFYING AND DELINEATING JURISDICTIONAL WETLANDS:** The most recent document prepared by the Federal Interagency Committee for Wetland Delineation detailing the criteria and the methodology for delineating wetland boundaries. A copy of this report is on file at the Bow Town Hall.

- 17.02.02 **HIGH INTENSITY SOIL MAPS FOR NEW HAMPSHIRE; STANDARDS AND ORIGINS:** The most recent document prepared by the Society of Soil Scientists of Northern New England (SSNNE) detailing the standards for making high intensity soils maps. A copy of this report is on file at the Bow Town Hall or may be purchased from the Merrimack County Conservation District.
- 17.02.03 **HYDRIC SOILS** shall be defined as very poorly drained soils, poorly drained soils, and those somewhat poorly drained soils which meet the hydric soils criteria set forth in the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands."
- 17.02.04 **HYDROPHYTIC VEGETATION** shall be defined as macrophytic plant life growing in water, soil or on a substrate that is at least periodically deficient in oxygen as a result of excessive water content. Hydrophytic vegetation includes, but is not limited to those plant species listed in the "National List of Plant Species That Occur in Wetlands" with a wetland indicator status of obligate, facultative, and facultative wet.
- 17.02.05 **NATIONAL LIST OF PLANT SPECIES THAT OCCUR IN WETLANDS; NORTHEAST REGION:** The most recent document prepared by the National and Regional Interagency Review Panels detailing the indicator status of all plants reviewed by the panels. A copy of this report is on file at the Bow Town Hall.
- 17.02.06 **NEW HAMPSHIRE CERTIFIED SOIL SCIENTIST:** A person qualified in soil classification and mapping who is recommended or approved by the New Hampshire Board of Certification of Soil Scientists, RSA 310-A: 75 through 97.
- 17.02.07 **PRIME WETLANDS** shall be defined as those areas designated Prime Wetlands within the scope of RSA 483-A, and N.H. Code of Administrative Rules WT 700. These wetlands are described in the Bow Wetlands Report dated December, 1989 as follows:

<i>Wetland Number</i>	<i>Location</i>	<i>Tax Map Sheet No.</i>
56	Turee Pond	8, 9, 10, 14, 15
32	Great Meadow Swamp - Woodhill-Hooksett Road	33, 38
34	Center Brook and Horse Brook	33, 34, 38
35	Bow Bog Brook-upstream of I-93	34, 35
45	Headwaters of White Brook	13, 18, 23
43	Brown Hill Road and Dunbarton Center Road	13, 18
44	White Rock Brook-Londonderry Tpk., West	13
55	White Rock Brook-Birchdale Rd. area	3, 4, 5

The topographic definition of each “Prime” Wetland is included in separate maps correlated to the report. Both the aforementioned maps and report are incorporated in this ordinance by reference and are on file at the Bow Town Hall.

17.02.08 PRIME WETLANDS BUFFER shall be defined as that area extending one hundred and fifty (150’) feet outside and beyond the boundary of each “Prime” Wetland as described in Definition 17.02.07 above.

17.02.09 VERY POORLY, POORLY AND SOMEWHAT POORLY DRAINED SOILS shall be as defined by the USDA-Soil Conservation Service in the Merrimack County Soil Survey or as further defined in the SSNNE report “High Intensity Soil Maps for New Hampshire: Standards and Origins”.

17.02.10 WETLANDS shall be as defined in the “Federal Manual for Identifying and Delineating Jurisdictional Wetlands”. Three technical criteria: hydric soils, hydrophytic vegetation and wetland hydrology are required for the positive identification of a wetland. Therefore, areas that meet these criteria are wetlands.

17.02.11 WETLANDS CONSERVATION DISTRICT OR DISTRICT

The limits of the Wetlands Conservation District are hereby determined to include Prime Wetlands, Prime Wetlands Buffers, all other Wetlands, and the Wetlands Buffer (described in 18.04.02 C.) including the following:

- (a) All areas delineated on the Bow Wetlands Map, 1989;
- (b) All areas of very poorly drained soils;
- (c) Areas of poorly and somewhat poorly drained soils that meet the wetland criteria as defined in the “Federal Manual for Identifying and Delineating Jurisdictional Wetlands.”

17.02.12 WETLAND HYDROLOGY shall be defined as permanent or periodic inundation, or soil saturation to within 6 inches of the soil surface at least seven consecutive days during the growing season. See the “Federal Manual for Identifying and Delineating Jurisdictional Wetlands” for technical criteria to determine wetland hydrology.

17.02.13 WETLAND SCIENTIST: A person capable of delineating wetlands using the methodology defined in the “Federal Manual for Identifying and Delineating Jurisdictional Wetlands.”

17.03 INCORRECTLY DESIGNATED LINES:

- 17.03.01 When a boundary of the Wetlands Conservation District is disputed, or in the event that an area is incorrectly graphically designated as being a wetland, the Planning Board and/or the Conservation Commission, at the applicants' expense may engage a Wetland Scientist and/or N.H. Certified Soil Scientist to determine the precise location of the Wetlands Conservation District boundaries, using the methodology contained in the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands", on the properties affected. In the alternative, the applicant may hire and pay such a scientist as acceptable to the Planning Board and Conservation Commission to make such determination. A report of their findings shall be submitted to the Planning Board and shall include, if warranted, a revised wetland map of the area in question along with a written report of their on-site field inspection and any data forms completed.
- 17.03.02 The Planning Board shall adjust the graphic depiction of the boundary of this District, if necessary, based on the evidence provided as set forth above. If the evidence indicates that the boundary or area in question has been incorrectly graphically designated as a wetland, the restrictions contained in this section shall not apply to the area lying outside of the District boundaries as corrected. Conversely, in the event that a wetland is not so graphically designated, then the restrictions contained in this section shall nevertheless apply. The Planning Board shall reserve the right to withhold action on any plat pending the results of the studies described above or an on-site inspection by the Board or its appointed agent.

17.04 REGULATIONS:

17.04.01 PRIME WETLANDS AND PRIME WETLAND BUFFER:

A. *Permitted Uses*

Permitted uses in areas designated as Prime Wetlands and/or Prime Wetlands Buffer are as follows:

- (1) Wildlife habitat development and management.
- (2) Conservation areas and nature trails.
- (3) Cultivation and harvesting of crops according to recognized soil conservation practices including the protection of the "Prime" Wetlands from non-point source pollution caused by fertilizers, pesticides, and herbicides used in such cultivation.

B. *Conditional Uses*

- (1) A Conditional Use Permit may be granted by the Plan-

ning Board (RSA 674:21 II) for the following purposes:

- (a) Forestry and tree farming within the Prime Wetland Buffer using best management practices in order to protect Prime Wetlands from damage, to prevent sedimentation, and to prevent destruction of wildlife habitats, provided that any forestry and/or tree farming activities shall first be reviewed and approved by the Conservation Commission.
- (b) The construction of fences, footbridges, catwalks, and wharves, provided:
 - (1) the structures are constructed on posts or pilings so as to permit the unobstructed flow of water;
 - (2) the natural contour of the Prime Wetland is preserved;
 - (3) the Conservation Commission has first reviewed and approved the proposed construction; and
 - (4) the Planning Board has received Conservation Commission approval in writing and has reviewed the proposed construction.
- (2) The applicant shall file such information as the Planning Board reasonably requires in order to review an application for a Conditional Use Permit. Prior to the granting of a Conditional Use Permit under this section, the applicant shall submit to the Town a performance Security Bond. The Security Bond shall be submitted and approved prior to issuance of any permit authorizing construction. The Security Bond shall be submitted in a form and amount, with surety and conditions satisfactory to the Conservation Commission and approved by the Planning Board, to ensure that the construction will be carried out in accordance with the approved design.
- (3) The Planning Board, on its own or at the request of the Conservation Commission, may require the applicant to submit environmental studies when necessary

to evaluate an application made under this section. The cost of these studies shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other special investigative studies and the costs incurred for the review of documents required by particular applications.

- (4) A Conditional Use Permit may be granted by the Planning Board only after due public notice and a public hearing on the application.

C. *Special Exception*

- (1) Special exceptions shall only be granted by the Zoning Board of Adjustment after due public notice and public hearing for undertaking the following uses in the Prime Wetland Buffer. The application for the special exception must be referred to the Planning Board and the Conservation Commission for review and comment at least thirty (30) days prior to the Zoning Board of Adjustment hearing on the application.
- (2) A special exception may be granted for uses which are otherwise allowed in the zone in which the Prime Wetland Buffer is located in the outermost seventy-five (75') feet of the Prime Wetland Buffer provided that all of the following conditions are found to exist:
 - (a) The lot upon which an exception is sought was an official lot of record, as recorded in the Merrimack County Registry of Deeds prior to January 6, 1990.
 - (b) The proposed special exception is essential to the productive use of land of the applicant which is not within the Prime Wetland Buffer.
 - (c) Design and construction methods will be such as to minimize detrimental impact upon the Prime Wetland and the seventy-five (75') feet of Buffer nearest the Prime Wetland; and the site will be restored as nearly as possible to its original condition.
 - (d) Economic advantage alone is not reason for granting a special exception.
 - (e) The use for which the exception is sought cannot

feasibly be carried out on a portion or portions of the lot which are outside the Prime Wetland Buffer.

- (f) The design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Article.
- (g) The proposed use will not create a hazard to individual or public health, safety and welfare due to the loss of the Prime Wetland Buffer, the contamination of groundwater, or other reason.
- (h) No special exception shall allow disturbance of the seventy-five (75') feet of the Prime Wetland Buffer nearest the Prime Wetland.
- (i) When any parcel of land is being developed, whether or not it is in the Wetlands Conservation District, no landlocked land or unbuildable lot shall be created that would require a special exception or variance under this Article.
- (j) No special exception shall be granted in a Prime Wetland.
- (k) No dredging and filling shall be permitted in a Prime Wetland.

No use of the Prime Wetland Buffer shall be allowed by special exception if it would be prohibited from the Wetlands Buffer as described in Section 17.04.02 C.

- (3) The Zoning Board of Adjustment may, and upon written request from the Planning Board or Conservation Commission shall, hire a qualified consultant or consultants to prepare such studies as are necessary to determine whether the conditions set forth above have been met. The cost of such studies shall be borne by the applicant.

D. *Pre-existing Uses in the Prime Wetland Buffer Zones*

- (1) Structures and uses existing or shown on an approved site plan or described in an outstanding valid building permit as of January 6, 1990 may be constructed or

continued provided that the building permit and any extensions of it have not expired and such use shall not be expanded to encroach further upon the Prime Wetland Buffer Zone, except as provided in this ordinance.

- (2) Where an existing use within the Prime Wetland Buffer is destroyed or in need of extensive repair due to fire or other casualty it may be rebuilt provided that such rebuilding is completed within one year of the event causing destruction and the new or rebuilt use shall not extend further into the Prime Wetland Buffer area than the original use.
- (3) Expansion of an existing use in the Prime Wetland Buffer zone is prohibited unless it qualifies under Sections 17.04.01 A, B, or C.

E. *Exemption for Residential Structures*

Notwithstanding other provisions of this Article, the construction of additions and extensions to one and two family dwellings shall be permitted within the Prime Wetland Buffer provided that:

- (1) The dwelling lawfully existed prior to January 6, 1990, and
- (2) The proposed construction conforms with all other applicable ordinances and regulations of the Town of Bow, and
- (3) Where an existing residential use in the Prime Wetland Buffer is destroyed or in need of extensive repair due to fire or other casualty, it may be rebuilt provided such rebuilding is completed within two (2) years of the event causing the destruction and the new or rebuilt use shall not extent further into the Prime Wetlands Buffer.

17.04.02 WETLANDS OTHER THAN PRIME WETLANDS

A. *Permitted Uses*

Any of the following uses are permitted in wetlands other than Prime Wetlands:

- (1) Any use otherwise permitted by the Zoning Ordinance

and State and Federal laws that does not involve the erection of a structure and that does not alter the surface configuration of the land by the addition of fill or by dredging except as a common treatment associated with a permitted use.

- (2) Cultivation and harvesting of crops according to recognized soil conservation practices, including the protection of the wetlands from pollution caused by fertilizers, pesticides and herbicides used in such cultivation.
- (3) Forestry and tree farming using best management practices in order to protect wetlands and streams from damage and to prevent sedimentation.
- (4) Wildlife habitat development and management.
- (5) Recreational uses consistent with the purpose and intent of this article as defined in the General Provisions and the Purpose stated in this Article.
- (6) Conservation areas and nature trails.

B. *Conditional Uses*

- (1) A Conditional Use Permit may be granted by the Planning Board (RSA 674:21 II) for the following purposes:
 - (a) construction of roads and other access ways;
 - (b) pipelines, powerlines and other transmission lines;
 - (c) water impoundments and the construction of well water supplies; and
 - (d) drainage ways to include streams, creeks or other paths or normal run-off water and common agricultural land drainage.
- (2) No Conditional Use Permit under this section shall be granted unless all of the following conditions are found to exist:
 - (a) The proposed construction is essential to the productive use of land of the applicant not within the Wetlands Conservation District.

- (b) Design, construction and maintenance will be such as to minimize detrimental impact upon the wetland, and the site will be restored as nearly as possible to its original condition.
 - (c) No alternative which does not cross a wetland or has less detrimental impact on the wetland is feasible.
 - (d) Economic advantage alone is not reason for the proposed construction.
- (3) The Planning Board, on their own or at the request of the Conservation Commission, may require the applicant to submit environmental studies when necessary to evaluate an application made under this section. The cost of these studies shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other special investigative studies and for the review of documents required by particular applications.
- (4) The applicant shall file such information as the Planning Board reasonably requires in order to review an application for a Conditional Use Permit. Prior to the granting of a Conditional Use Permit under this section, the applicant shall agree to submit a performance Security Bond to the Planning Board. The Security Bond shall be submitted in a form and amount, with surety and conditions satisfactory to and approved by the Planning Board, to ensure that the construction has been carried out in accordance with the approved design. The Security Bond shall be submitted and approved prior to issuance of any permit authorizing construction.
- (5) A Conditional Use Permit may be granted by the Planning Board only after due public notice and a public hearing on the application.

C. *Wetland Buffer*

The following restrictions apply to the land surrounding wetlands which are not Prime Wetlands:

- (1) No waste disposal systems for one or two family dwellings shall be located closer than seventy-five (75')

feet to any wetland;

- (2) No waste disposal systems for all uses other than those listed in the preceding section, shall be located closer than one hundred twenty-five (125') feet to any wetland.
- (3) No buildings or parking lots shall be located closer than fifty (50') feet to any wetland 0.25 acre or larger in size.
- (4) No buildings or parking lots shall be located closer than thirty (30') feet to any wetland 0.25 acre or smaller.
- (5) Notwithstanding the above, no buildings or parking lots shall be located closer than seventy-five (75') feet to a wetland of any size if it has very poorly drained soils, is a bog, or is adjacent to a lake, pond, or perennial or intermittent stream.
- (6) Where an existing use within the setback is destroyed or in need of extensive repair it may be rebuilt provided that such rebuilding is completed within one year of the event causing destruction, the new or rebuilt use shall not extend further into the wetland or setback area than the original use.
- (7) All construction, forestry and agricultural activities within one hundred (100') feet of any wetland shall be undertaken with special care to avoid erosion and siltation into the wetlands. When deemed necessary, a Sediment and Erosion Control Plan approved by the Merrimack County Conservation District may be requested by the Planning Board or the Conservation Commission.
- (8) No underground chemical or fuel tanks of any size shall be located within two-hundred (200') feet of any wetland.

D. *Special Exceptions*

- (1) Upon application to the Board of Adjustment, a special exception shall be granted to permit any use which would be allowed in the zone in which the lot lies, but subject to the restrictions on the Wetland Buffer described in Section 17.04.02 C, and provided that all of the following conditions are found to exist:

- (a) The lot upon which an exception is sought was an official lot of record, as recorded in the Merimack County Registry of Deeds as of January 6, 1990.
 - (b) The use for which the exception is sought, after consideration of all practicable alternatives, cannot feasibly be carried out on a portion or portions of the lot which are outside the Wetlands Conservation District.
 - (c) The design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Article.
 - (d) The proposed use will not create a hazard to individual or public health, safety and welfare due to the loss of wetland, the contamination of groundwater, or other reason.
 - (e) Economic advantage alone is not reason for granting a special exception.
- (2) The Zoning Board of Adjustment shall not grant a special exception until after notice, hearing, and comment by the Planning Board or the Conservation Commission as provided in Section 17.04.01 C above.

E. *Filled Lands and Pre-existing Uses*

- (1) Lands, which may have been wetlands but were filled under properly issued State and Town permits granted prior to the adoption of this ordinance shall be classified according to the soils and flora existing at the site at the time application for building permit or subdivision is made.
- (2) Structures and uses existing or shown on an approved site plan or described in an outstanding valid building permit as of January 6, 1990 may be constructed or continued provided that the building permit and any extensions of it have not expired and such use shall not be expanded to encroach further upon the wetlands or designated setback or Buffer areas, except as provided in this ordinance.

F. *Exemption for Residential Structures*

Notwithstanding other provisions of this Article, the construction of additions and extensions to one and two family dwellings shall be permitted within the Wetland Buffer as defined in Section 17.04.02 C provided that:

- (1) The dwelling lawfully existed prior to January 6, 1990, and
- (2) The proposed construction conforms with all other applicable ordinances and regulations of the Town of Bow, and
- (3) The proposed construction complies with the Wetlands Buffer provisions contained in Section 17.04.02 C, and
- (4) The repair or reconstruction of an existing residential structure which lies in the Wetlands Buffer and which follows destruction or partial destruction of such structure will commence within two years of the date of destruction, and

17.05 GENERAL PROVISIONS

Should any section or provision of this Article be declared by a court of competent jurisdiction to be invalid, such decision shall not affect the validity of the Article as a whole or any other part thereof.

AQUIFER PROTECTION REGULATIONS

ARTICLE XVIII

TABLE OF CONTENTS

<u>Section</u>	<u>Description</u>
18.01	PURPOSE
18.02	SPECIAL DEFINITIONS
18.03	USE REGULATIONS
18.04	DENSITY AND LOT COVERAGE REGULATIONS
18.05	SPECIAL PERMITS WITHIN THE AQUIFER PROTECTION DISTRICT
18.06	TREATMENT OF PRE-EXISTING NON-CONFORMING USES
18.07	DESIGN AND OPERATIONS CRITERIA
18.08	SEVERABILITY

18.01 PURPOSE

The Town has determined that:

- (a) the groundwater underlying this Town is the sole source of its future drinking water supply.
- (b) the groundwater aquifers are integrally connected with, and flow into, the surface waters, lakes, and streams which constitute significant recreational and economic resources of the Town.
- (c) spills and discharges of petroleum products and other toxic and hazardous materials and discharge of sewage have repeatedly threatened the quality of such groundwater supplies and related water resources throughout New Hampshire and elsewhere, posing potential public health and safety hazards and threatening economic losses to the affected communities.

Therefore, the Town has enacted this ordinance in order to:

- (d) preserve and maintain the existing and potential groundwater supplies, aquifers, and groundwater recharge areas of the Town, and protect them from adverse development or land-use practices.
- (e) preserve and protect present and potential sources of drinking water supply for the public health and safety.
- (f) conserve the natural resources of the Town.

18.02 SPECIAL DEFINITIONS:

18.02.01 *Aquifer:*

Geologic formation composed of rock or sand and gravel that contains significant amounts of potentially recoverable potable water.

18.02.02 *Aquifer Protection District or District:*

The designated primary recharge areas lying westerly of N.H. Route 3A are shown in Figure 3.1 "Unconsolidated Aquifers and Recharge Areas" and the primary exploration areas lying easterly of N.H. Route 3A are shown in Figure 5.2 "Unconsolidated Aquifers and Primary Exploration Areas", both of which are contained in the SEA Consultants Inc. report of December, 1987 entitled "Aquifer Evaluation Investigation and Development of Groundwater Protection Program, Bow, New Hampshire". This report and Figures

3.1 and 5.2 are adopted as part of this ordinance and the report and addenda are on file at the Bow Town Hall.

- 18.02.03 *Area of Influence:*
The area which experiences drawdown by a pumping well as plotted on a two-dimensional map surface; usually ellipsoidal in shape.
- 18.02.04 *Cone of Depression:*
A three-dimensional conical concavity produced in a water table by a pumping well.
- 18.02.05 *Discharge:*
The accidental spilling, leaking, pumping, pouring, emitting, emptying, or dumping of toxic or hazardous materials upon or into any land or waters in the Town of Bow. Discharge includes, without limitations, leakage of such materials from failed or discarded containers or storage systems, and disposal of such materials into any on-site sewage disposal system, dry well, catch basin, or unapproved landfill.
- 18.02.06 *Groundwater:*
All the water found beneath the surface of the ground. In this ordinance, the term refers to the slowly moving subsurface water present in aquifers and recharge areas.
- 18.02.07 *Impervious Surface:*
Material placed by man that does not allow surface water to penetrate into the soil.
- 18.02.08 *Leachable Waste:*
Waste materials including solid wastes, sludge, and agricultural wastes that are capable of releasing water-borne contaminants to the surrounding environment.
- 18.02.09 *Mining of Land:*
The removal of geologic materials such as topsoil, sand, gravel, or bedrock.
- 18.02.10 *Primary Recharge Areas:*
Areas that collect precipitation or surface water and transmit it into the cone of depression of existing or potential water supply wells. Primary recharge areas are mapped unconsolidated aquifer areas surrounding existing or potential water supply well sites.
- 18.02.11 *Sanitary Waste:*
Wastewaters arising from ordinary domestic water use as from toilets, sinks, bathing facilities, etc., and containing such concentrations and types of pollutants as to be considered normal wastes.

18.02.12 *Structure:*
Anything constructed or erected, except a boundary wall or fence, the use of which requires location on the ground or attachment to something on the ground. For the purposes of this ordinance, buildings are structures.

18.02.13 *Solid Waste:*
Useless, unwanted, or discarded solid material with insufficient liquid content to be free-flowing. This includes, but is not limited to, rubbish, garbage, scrap materials, junk, refuse, inert fill material, and landscape refuse.

18.02.14 *Toxic or Hazardous Materials:*
Any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant, actual or potential hazard to water supplies, or other hazard to human health, if such substance or mixture were discharged to land or waters of this Town.

Toxic or hazardous materials include, without limitation, organic chemicals, petroleum products, heavy metals, radioactive or infectious wastes, acids and alkalies, and include products such as pesticides, herbicides, solvents and thinners. Waste generated by the following activities, without limitation, are presumed to be toxic or hazardous unless and except to the extent that anyone engaging in such an activity can demonstrate the contrary to the satisfaction of the Planning Board after it has provided the Bow Water Committee with opportunity for comment:

- (a) Airplane, boat and motor vehicle service and repair;
- (b) Chemical and bacteriological laboratory operation;
- (c) Cabinet making;
- (d) Dry Cleaning;
- (e) Electronic circuit assembly;
- (f) Metal plating, finishing and polishing;
- (g) Motor and machinery service and assembly;
- (h) Painting, wood preserving and furniture stripping;
- (i) Pesticide and herbicide application;
- (j) Photographic processing;
- (k) Printing.

18.03 USE REGULATIONS:

18.03.01

Prohibited Uses: Within the Aquifer Protection District the following uses are specifically prohibited:

- (a) Sanitary landfills, disposal of solid wastes other than brush and stumps, and disposal of brush and stumps in accordance with all laws by burial with less than four (4') feet of clearance above the observed maximum water table.
- (b) Stockpiles of road salt or other ice-control chemicals in quantities greater than 200 pounds dry weight, unless storage is under cover. This includes all mixtures of sand and salt.
- (c) Dumping of snow from outside the district.
- (d) Dry cleaning establishments and self service laundries.
- (e) Painting, wood-preserving, or stripping paint on a commercial scale.
- (f) Chemical or bacteriological laboratories.
- (g) Commercial establishments for printing, photocopying, or photographic processing.
- (h) Storage of herbicides, pesticides, fertilizers, or fungicides in amounts greater than 50 gallons or 250 pounds dry weight for retail distribution.
- (i) Underground storage tanks for petroleum products or any toxic or hazardous substance.
- (j) Golf courses.
- (k) Sewage treatment plants other than municipal.
- (l) Commercial establishments or municipal facilities for the washing, servicing, painting, or repair of airplanes, boats or motor vehicles.
- (m) Any other use which involves as principal activity the manufacture, storage, use, transportation, or disposal of toxic or hazardous material, except as allowed by special permit below.

18.03.02

Special Permit Uses: Within the Aquifer Protection District the following uses are allowed only by special permit:

- (a) Municipal sewage treatment plants with on-site disposal of primary and/or secondary effluent discharge.
- (b) Commercial earth removal and mining of land for on-site and/or off-site use, provided that the materials are not removed closer than four (4') feet to the observed maximum

water table, unless the applicant demonstrates to the satisfaction of the Planning Board that the excavation will not adversely affect water quality. This use will be subject to RSA 155:E and its amendments in the future.

- (c) Any use involving the alteration of greater than 50 (fifty) percent of the lot from the natural state.
- (d) Any use with the exception of retail distribution which involves as an accessory activity the storage, use, or transportation of pesticides, herbicides, fungicides, or fertilizers, not including ordinary household use.
- (e) Any portions of a residential development.

18.03.03 *Permitted Uses:* Within the Aquifer Protection District the following uses are specifically permitted, provided that the density regulations in Section 18.04 have been met and all other necessary permits, orders, or approvals required by local, state, or federal law have been obtained:

- (a) All ordinary and customary uses associated with maintenance and upkeep of buildings and grounds provided there is no increase in impermeable surface area. Refer to Section 6.02 of this ordinance for percent coverage allowed by zone.
- (b) Necessary public utilities and/or facilities designed so as to prevent contamination of groundwater.
- (c) Agricultural uses: pasture, light grazing, hay, gardening, nursery, conservation, forestry, and other harvesting.
- (d) Proper operation and maintenance of existing water bodies and dams, splash boards, and other water control, supply, and conservation devices.
- (e) Single family residential development.

18.04 DENSITY AND LOT COVERAGE REGULATIONS:

In the Aquifer Protection District:

- 18.04.01 The impervious portion of a lot shall not exceed the allowable percent of area coverage expressed in the Table of Dimensional Standards, Section 6.02 of this ordinance.
- 18.04.02 No division of an existing parcel of land shall produce a parcel which violates the standards of this ordinance.
- 18.04.03 The density of design gallons per day of sewage disposal shall not exceed N.H. Water Supply and Pollution Control Standards.

18.05 SPECIAL PERMITS WITHIN THE AQUIFER PROTECTION DISTRICT:

18.05.01 Planning Board Granting Authority: The Planning Board shall have the authority to issue a special permit for the uses listed in 18.03.02 if the Planning Board determines that the requirements of this Section 18.05 have been met. In making such determinations, the Planning Board shall give consideration to the simplicity, reliability and feasibility of the control measures proposed and the degree of threat to water quality which would result if the control measures failed.

The special permit shall be in writing.

18.05.02 Materials to be Submitted by Applicants: To apply for a special permit, an applicant shall at a minimum provide the following materials to the Planning Board in such quantities as the Planning Board shall require:

- (a) A site showing existing and proposed structures and the location of all facilities relevant to the other requirements specified in Paragraphs b, c, and d below.
- (b) A complete list of all chemicals, pesticides, fuels, and other potentially toxic or hazardous materials to be used, generated, stored, or disposed of on the premises.
- (c) A description of proposed measures to protect all storage containers or facilities associated with such materials from vandalism, accidental damage, corrosion, and leakage. Such measures might include secure storage areas, shelters for corrodible or water-soluble materials, spill control provisions around transfer points, and a schedule of future monitoring of waste streams or groundwater on the site to ensure that proper control has been maintained.
- (d) Projections of concentrations of nitrogen and other relevant solutes in the groundwater at the down gradient boundary of the property and at any other locations deemed pertinent by the Planning Board, including down gradient drinking water wells identified by construction of flow lines from the proposed site. Such projections shall be based upon appropriate groundwater models and information supplied by a registered professional engineer, hydrogeologist, or geologist.
- (e) Such information as is needed to show compliance with the requirements of Section 18.07.
- (f) Such other information as the Planning Board may require by regulation or otherwise to properly review the application.

- 18.05.03 Review by Other Town Agencies: Upon receipt of an application for a special permit, the Planning Board shall transmit one (1) copy to each of the Water Commission, the Conservation Commission, the Town Manager and Building Inspector for written comment. Failure by any of these agencies or persons to return written comments to the Planning Board within thirty-five (35) days shall indicate approval or no desire to comment.
- 18.05.04 Public Hearing: Before acting on an application for a special permit the Planning Board shall hold a public hearing on the application after notice in accordance with RSA 676:4.
- 18.05.05 Parcels at the Boundary of the District: If new data on local hydrogeology and topography, acceptable to the Planning Board, would lead to a different location of the boundary, the Planning Board shall, by special permit, deem said boundary location to be the correct legal boundary for purposes of this section. Upon request of an applicant, the Planning Board may engage a registered professional engineer or hydrogeologist to conduct such a boundary-analysis and shall charge the applicant for the cost thereof, or in the alternative the applicant may hire and pay an engineer or hydrogeologist acceptable to the Planning Board to conduct such analysis.
- 18.05.06 The Planning Board may grant a special permit if it finds by written decision that the proposed use:
- (a) meets the intent of this section as well as its specific criteria;
 - (b) will not, during construction or thereafter, have an adverse impact on any aquifer or recharge area in the District; and
 - (c) will not adversely affect an existing or potential domestic or municipal water supply; and is consistent with existing and probable future development of surrounding areas.
 - (d) Groundwater quality in the district and at the down gradient boundary of the property will not violate State or Federal drinking water standards.
 - (e) In addition to the findings described in (a), above, the decision shall include an explanation of any variation from the recommendations received from the agencies or individuals described in 18.05.03.
 - (f) Where a project also requires approvals by State agencies, the special permit shall include a condition that no building permits shall be issued until evidence has been received by the Planning Board that such approvals have been issued.

18.06 TREATMENT OF PRE-EXISTING NON-CONFORMING USES:

- 18.06.01 Structures and uses existing or shown on an approved site plan or described in an outstanding valid building permit as of January 6, 1990 may be constructed or continued provided that the building permit and any extensions of it have not expired and such use shall not be expanded to encroach further upon the Aquifer Protection District, except as provided in this ordinance.
- 18.06.02 With respect to underground storage tanks for petroleum products or other toxic or hazardous substances, the provisions of this section shall become applicable whenever such a tank becomes subject to replacement because of provisions under any law other than this section.
- 18.07 DESIGN AND OPERATIONS CRITERIA:
- The following design and operation criteria shall be observed within the Aquifer Protection District:
- 18.07.01 Safeguards: Provision shall be made to protect against toxic or hazardous materials discharge or loss resulting from corrosion, accidental damage, spillage, or vandalism through measures such as: prohibition of underground fuel storage tank; spill control provisions in the vicinity of chemical or fuel delivery points; secured storage areas for toxic or hazardous materials; and indoor storage provisions for corrodible or dissolvable materials. For operations which allow the evaporation of toxic or hazardous materials into the interiors of any structures, a closed vapor recovery system shall be provided for each such structure to prevent discharge or contaminated condensate into the groundwater.
- 18.07.02 Location: Where the premises are partially outside of the Aquifer Protection District, potential pollution sources such as on-site waste disposal systems shall be located outside the District to the extent feasible.
- 18.07.03 Disposal: Where any toxic or hazardous wastes exist or will exist in quantities greater than those associated with normal household use, the applicant must demonstrate the availability and feasibility of disposal methods in conformance with all State and Federal laws.
- 18.07.04 Drainage: All run-off from impervious surfaces shall be recharged on the site and diverted towards areas covered with vegetation for surface infiltration to the extent possible. Dry wells shall be used only where other methods are not feasible, and shall be preceded by oil, grease, and sediment traps to facilitate removal of contaminants.
- 18.07.05 Monitoring: Periodic monitoring may be required by the Planning

Board, including sampling of wastewater disposed to on-site systems or dry wells and sampling from groundwater monitoring wells to be located and constructed as specified in the Special Permit with reports to be submitted to the Planning Board and the Conservation Commission. The cost of monitoring, including sampling and analysis, shall be borne by the owner or applicant.

- 18.07.06 Erosion and Sedimentation Control: All clearing and earthmoving operations shall occur only while erosion and sedimentation control measures, approved by the Planning Board, are in place. Such control measures shall remain in place until the Building Inspector determines that the danger of erosion or sedimentation no longer exists. Hay bales shall only be used as a sole measure where it has been determined that the danger of soil erosion or sedimentation is minimal.

18.08 SEVERABILITY:

A determination that any specific portion of this Section XVIII is invalid shall not render any other part thereof invalid.

BUDGET FOR THE TOWN OF BOW

PURPOSES OF APPROPRIATION

	Actual Appropriations 1989	Actual Expenditures 1989	Selectmen's Budget 1990	Budget Committee Recommended 1990
General Government				
Town Officers' Salary	\$ 166,005	\$ 153,938	\$ 169,722	\$ 169,722

INDEPENDENT AUDITOR'S REPORT

To the Members of
the Board of Selectmen
Town of Bow
Bow, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Bow and the combining and individual fund financial statements of the Town as of and for the year ended December 31, 1989, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Bow at December 31, 1989, and the results of its operations and the changes in financial position of its nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town at December 31, 1989, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles.

TOWN OF BOW
NOTES TO THE FINANCIAL STATEMENTS
December 31, 1989

Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or, in the case of judgements and claims against the Town, when there is a probability that such judgements and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacations and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust Funds are accounted for using the accrual basis of accounting.

D. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. State Statutes require balanced budgets but provide for the use of beginning general fund unreserved fund balance to achieve that end. In 1989, the beginning fund balance was applied as follows:

Unreserved Fund Balance	
Used To Reduce Tax Rate	\$ 87,734
Beginning Fund Balance —	
Reserved For Encumbrances	<u>216,082</u>
Total Use of Beginning Fund Balance	<u><u>\$ 303,816</u></u>

E. Fund Balance

The portion of fund balance which has been legally segregated for a specific future use, or which indicates that that portion is not appropriable for expenditures, is shown as reserved.

Reserved for Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year.

The General Fund reserve for encumbrances at December 31, 1989 is detailed in Exhibit A-2 and totals \$309,443.

The Special Revenue Funds reserve for encumbrances is detailed as follows:

Sewer Fund	<u>\$ 2,599</u>
------------	-----------------

Other Reserves

Other reserves used by the Town include Reserve for Special Purposes (which includes Capital Reserve Fund balances) and Reserve for Endowments.

F. Cash and Investments

At year end, the carrying amount of the Town's deposits is \$4,216,614 and the bank balance is \$4,132,595. Of the bank balance, \$428,696 was covered by Federal depository insurance and \$3,703,899 was uninsured.

State Statutes authorize the Town to invest excess funds in the custody of the Treasurer in obligations of the United States Government, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire, in certificates of deposit of banks incorporated under the laws of the State of New Hampshire, or in national banks located within this State or the State of Massachusetts. These financial statements report investments in certificates of deposit and savings bank deposits under the caption Cash and Equivalents.

The Town is further authorized to invest Trust Funds in obligations of political subdivisions and stocks and bonds, as they are legal for investment by New Hampshire savings banks. Capital Reserve Funds must be kept separate and not intermingled with Trust Funds. Capital Reserve Funds may be invested only in savings bank deposits of New Hampshire banks, or in United States or State of New Hampshire bonds or notes.

Investments in all instances are stated at cost or, in the case of donated investments, at market value at the time of bequest or receipt. Investments at year end are as follows:

<u>Library Trust Funds</u>	<u>Carrying Amount (Cost)</u>	<u>Market Value</u>
Corporate Bonds	\$ 10,194	\$ 9,350
Corporate Stocks	514	5,507
Totals	<u>\$ 10,708</u>	<u>\$ 14,857</u>

G. Accumulated Unpaid Vacation and Sick Pay

Accumulated unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Vacation and sick leave is granted in varying amounts based on length of service. Vacation pay accumulation does not exceed a normal year's allowance. Accumulated sick leave is indeterminable.

H. Inventories

Inventory in the General and Special Revenue Funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

I. Taxes Collected For Others

The property taxes collected by the Town include taxes levied for the Bow School District and Merrimack County, which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town.

J. Property Taxes

The National Council on Governmental Accounting, Interpretation 3, referring to property tax revenue recognition, requires disclosure if property taxes receivable, which are to be collected beyond a period of 60 days subsequent to year's end, are recognized on the balance sheet and not reserved. In accordance with the practice followed by other municipal entities in the State of New Hampshire, the Town of Bow annually recognizes, without reserve, all taxes receivable at the end of the fiscal year. The Town believes that the application of NCGA Interpretation 3, which would result in a decrease in the undesignated General Fund unreserved fund balance, would give a misleading impression of the Town's ability to meet its current and future obligations. This practice is consistent with the previous year.

The property tax year is from April 1 to March 31 and all property taxes are assessed on the inventory taken in April of that year.

Interest of 12% is charged on property taxes unpaid after December 1, 1989.

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident taxes, known as overlay. All abatements and refunds are charged to this account. The amount raised in 1989 was \$15,578 and expenditures amounted to \$38,280.

As prescribed by law, the tax collector places a lien on properties for all uncollected property taxes in the following year after taxes are due. The lien on these properties has priority over other liens and accrues interest at 18% per annum.

If property is not redeemed within the two-year redemption period, the property is tax-deeded to the Town.

K. Interfund Transactions

During the course of normal operations, the Town has numerous transactions between funds, including expenditures and transfers of resources to provide

services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers.

L. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at December 31, 1989 are as follows:

<u>Fund</u>	<u>Interfund Receivable(s)</u>	<u>Interfund Payable(s)</u>
General Fund	\$ 61,519	\$ 7,730
Special Revenue Fund	95	27,455
Capital Projects Fund	7,436	
Trust Funds	7,730	41,595
	<hr/>	<hr/>
Totals	\$ 76,780	\$ 76,780
	<hr/>	<hr/>

M. Total Columns (Memorandum Only) on Combined Statements

Total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

N. Comparative Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

NOTE 2 — CHANGES IN LONG-TERM DEBT

The following is a summary of long-term debt transactions of the Town for the fiscal year ended December 31, 1989.

General Obligation Debt Payable January 1, 1989	\$ 522,000
General Obligation Debt Retired	<u>47,000</u>
General Obligation Debt Payable December 31, 1989	<u>\$ 475,000</u>

General obligation debt payable at December 31, 1989 is comprised of the following individual issues:

\$137,500 1977 Sewer Construction Bonds due in annual installments of 12,500 in 1988, \$10,000 through 1994, and \$5,000 through 2007; interest variable from 5.65% to 7.60%	\$ 115,000
\$412,500 1987 Sewer Construction Bonds due in annual installments of \$27,500 in 1988, \$25,000 in 1989, and \$20,000 through 2007; interest variable from 5.40% to 8.25%	\$ 360,000
Total	<u><u>\$ 475,000</u></u>

The annual requirements to amortize all general obligation debt outstanding as of December 31, 1989, including interest payments, are as follows:

Annual Requirements To Amortize General Obligation Debt

Fiscal Year Ending December 31	General Obligation Debt		
	Principal	Interest	Total
1990	\$ 30,000	\$ 34,320	\$ 64,320
1991	30,000	32,575	62,575
1992	30,000	30,765	60,765
1993	30,000	28,890	58,890
1994	30,000	26,940	56,940
1995-2007	<u>325,000</u>	<u>179,722</u>	<u>504,722</u>
Totals	<u><u>\$475,000</u></u>	<u><u>\$ 333,212</u></u>	<u><u>\$ 808,212</u></u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

Legal Debt Margin

According to State Law, Town borrowing (exclusive of Water and Sewer Bonds or Notes properly approved under the provision of the Municipal Finance Act) may not exceed one and seventy-five hundredths percent (1.75%) of the valuation of property based upon the applicable last locally assessed valuation of the municipality as last equalized by the Commissioner of Revenue Administration.

At December 31, 1989, the Town of Bow is using an equalized value of \$505,088,276 and a legal debt margin of \$8,839,045.

Capital Lease Agreements for Equipment

The Town has entered into lease-purchase agreements for telephone equipment and a copy machine, which provide for payments as follows:

**Fiscal Year Ending
December 31**

1990	\$ 4,967
1991	4,370
1992	2,953
1993	<u>502</u>
Total	<u>\$ 12,792</u>

Payments of \$3,219 were made in 1989.

Total Long-term Debt

General Obligation	\$ 475,000
Capital Leases Payable	<u>12,792</u>
Total	<u>\$ 487,792</u>

NOTE 3 — DEFINED BENEFIT PENSION PLAN

Most Town of Bow full-time employees participate in the New Hampshire Retirement System, a multiple-employer public employee retirement system. The payroll for employees covered by the system for the year ended December 31, 1989 was \$689,284; the Town's total payroll was \$873,301.

All Town full-time employees are eligible to participate in the system. Employees who retire before age 65 are entitled to a retirement benefit equal to 1/60 of the employee's average final compensation multiplied by years of service. After attainment of age 65, the payment by the retirement system is reduced to 1/66 of the average final compensation. The system also provides death and disability benefits which are established by State Statute.

Covered employees other than police and fire personnel are required by State Statute to contribute 5.0% of their salary to the plan; police and firemen contribute 9.3%. The Town is required by the same statute to contribute a percentage of the employee's salary, based on an actuarial valuation of the entire State plan performed June 30, 1985. These contributions represented 5.53% for police, 9.29% for firemen and 2.67% for all other employees through June 30, 1989. For July 1, 1989, the Town's contribution rates were 6.23% for police, 8.13% for firemen and 2.48% for all other employees. The contribution requirements for the year ended December 31, 1989 were \$69,396, which consisted of \$25,485 from the Town and \$43,911 from employees.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the system's funding status

on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among retirement systems and employers. The State retirement system does not make separate measurements of assets and pension benefit obligations for individual employers. According to plan administrators, the pension benefit obligation at June 30, 1987 for the system as a whole, determined through an actuarial valuation performed as of that date, was \$633,344.000. The system's net assets available for benefits on June 30, 1987 (valued at market) were estimated at \$792,615.988, leaving no unfunded pension benefit obligation. The percentage that the Town of Bow has in relation to the entire plan cannot be determined.

NOTE 4 — TRUST FUNDS

The principal amount of all Nonexpendable Trust Funds is restricted either by law or by terms of individual bequests, in that only income earned may be expended. The Town's Nonexpendable and Expendable Trust Funds at December 31, 1989 are detailed as follows:

<u>Purpose</u>	<u>Nonexpendable</u>	
	<u>Principal</u>	<u>Income</u>
Cemetery Care	\$ 22,965	\$ 23,724
McNamara Scholarship	2,500	1,400
Library Trust Fund	11,259	
Total Nonexpendable	\$ 36,724	\$ 25,124

<u>Capital Reserve Funds</u>	<u>Expendable</u>
Replacement of Highway Equipment	\$ 158,669
Replacement of Town Buildings	8,014
Town Hall	1,462
Fire Equipment	3,406
Highway Construction	2,876
Replacement of Police Equipment	21,385
Baker Free Library	510
Tax Map	28,136
Sewer Construction	123,797
Town Reappraisal	104,039
Dry Bridge	9,566
Rescue Vehicle	7,070
South Bow Road Improvements	15,950

<u>Other Town Trusts</u>	
General Purpose	1,642
Bow Bog Meeting House	5,303
Total Expendable	491,825
Total All Trust Funds	\$ 553,673

NOTE 5 — LITIGATION

There are various claims and suits pending against the Town which arise in the normal course of the Town's activities. In the opinion of counsel, the ultimate disposition of these various claims and suits will not have a material effect on the financial position of the Town.

NOTE 6 — CAPITAL PROJECTS FUND

A. Project Deficit

There is a deficit of \$11,917 in the Capital Projects Fund at December 31, 1989. Generally, this deficit arises because of the application of generally accepted accounting principles to the financial reporting for this fund. Bonds or notes authorized to finance the project are not recognized on the financial statements until issued.

B. Bonds or Notes Authorized — Unissued

<u>Project</u>	<u>Special Town Meeting Authorization Date</u>	<u>Amount Authorized</u>
Sewage Construction and Sewage Treatment Facilities	November 9, 1983	\$ 262,750
Amount Issued in 1984		<u>30,000</u>
Balance Authorized — Unissued December 31, 1989		<u><u>\$ 232,750</u></u>

NOTE 7 — AMOUNT OF PROPERTY TAXES ASSESSED AGAINST PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE IN 1989 (\$3,418,890)

The amount of property taxes assessed against the Public Service Company of New Hampshire in 1989 was \$3,418,890, which represents approximately 44% of the total property taxes assessed of \$7,635,186. This constituted a significant portion of the Town's revenue in 1989. A serious financial situation could develop if the Town failed to collect this tax on a current basis.

NOTE 8 — RESTATEMENT OF PRIOR YEAR FUND BALANCE (CAPITAL PROJECTS FUND)

The Unreserved — Undesignated Fund Balance at January 1, 1989 in the Capital Projects Fund has been restated as follows:

Fund Balance (deficit) — January 1, as previously reported	(\$ 28,063)
Restatement due to reduction in Contracts Payable	<u>23,418</u>
Fund Balance (Deficit) — January 1, as restated	<u><u>(\$ 4,645)</u></u>

BOW POLICE DEPARTMENT

Full-time Officers

CHIEF Peter A. Cheney
LT. Robert C. Graves
SGT. Bruce E. Price
SGT. Paul M. Stone
PTLM. Bruce A. Jacklin
CPL. Kelvin H. Clark
PTLM. Martin K. Ardine

Auxiliary Officer

PTLM. Richard F. Bean

Part-time Secretary

Annette T. Currier

As we begin a new decade, I am at this time reviewing flow charts for your police department's needs, activities, incidents, effectiveness and accomplishments of the past decade, and in some cases back two decades when the first fulltime police officer for Bow was hired (10-1-69). Effectiveness within a police department is one of the most difficult categories to measure, since there are numerous factors involved. A few examples would be the quality of equipment needed to work with, updating police training, quality of management, attitudes of police personnel toward the public, as well as the public's attitude toward police personnel's appearance, visibility, professionalism, knowledge of area, longevity, etc. The only real weakness I can see at this time is in manpower. We have managed for the most part to maintain the same level of service that you have come to expect from us. However, industries have increased to the point where it is becoming increasingly difficult to check them all, even with a relatively quiet 2400-0800 shift, with one officer on duty. We have not been able to perform house checks as thoroughly as in the past. There has been an increase in delayed response to calls due to the officer(s) being engaged on another call. Statistics state that in the Northeastern United States, the average number of sworn police officers for rural towns with a population under 10,000 inhabitants to be 2.4 officers per 1,000 inhabitants. Bow's estimated (state) population is 5,200.

The economy has slowed considerably in 1989 and indications are that 1990 will not look any better. Unfortunately, this is when a police department's activity increases. As you will note in our statistics, burglaries in 1989 totaled 19, as compared to 12 in 1988. This was the highest number since 1981 when we had 24 reported burglaries.

I am in hopes of getting one of our officers trained in the new DARE program, which is a drug awareness and prevention program targeted for 5th and 6th grade level students.

Other than our normal statistical data list, I am including several flow charts this year and hope that everyone will take a moment to review them. If you have any questions do not hesitate to call me or stop by my office.

I want to thank all the residents and businesses who have continued to support,

cooperate and render their assistance for the past year to my department and members when needed.

PLEASE DO NOT HESITATE TO REPORT ANY VEHICLE OR PERSON THAT LOOKS SUSPICIOUS TO YOU-TO US! AT 228-0511.

Respectfully submitted,
PETER A. CHENEY
Chief of Police

BOW POLICE DISPATCH CENTER

Full Time

Margaret Lougee
Gloria Mullavey
Martha Plummer
Jon Winchester

Part Time

Robert Lougee
Neil Smith
Joe Francoeur
Cheryl Bucknam
Eric Bourne

There is no other Bow Town Agency at this time that could perform all of the functions the Bow Dispatch Center does 365 days a year 24 hours a day. The Bow Dispatch Center is unique unto itself in that it may communicate via radio with Civil Defense, the Town Engineer, Fire Dept., Highway Dept., Rescue Squad, Bow Schools, and Tri-State Ambulance Service. These communications are vital in cases of serious problems or disasters, i.e. floods, hurricanes, chemical spills etc. All of these agencies may be activated and may communicate with one another on the same radio frequency simultaneously during a crisis situation.

In May 1989 the Dispatch Center went on line with the SPOTS computer which is tied in directly with the New Hampshire State Police Headquarters as well as other law enforcement agencies nationwide.

The SPOTS computer allows the dispatchers to run wants and warrants, license checks, motor vehicle registrations, as well as other pertinent information needed for the officers out in the field. All of the fulltime dispatchers have been State Certified to operate the SPOTS computer by attending school on the same. As of the end of November 1989 there have been approximately 28,000 inquiries made by the Dispatch Center.

In addition to dispatching for the Bow Police Dept. we dispatch for the Dunbarton Police Dept. and in August of 1989 we started dispatching for the Pembroke Police Dept.

Number of calls for Dunbarton PD in 1989

Radio 5,942

Telephone 3,870

Number of calls for Pembroke from August thru December 1989

Radio 12,996

Telephone 4,926

The Dispatch Center is located at 10 Grandview Road at the Municipal Building. The OPERATION CALL-IN is still in effect and presently has approx. 20 residents involved on a daily basis. All senior citizens, handicapped, and residents living alone are welcome to join. Neighborhood watch decals and information may be obtained at the Dispatch Center.

I would like to thank the other Town Agencies for their assistance and cooperation for 1989.

The Bow Dispatch Center looks forward to serving you in the next decade and thanks you for your support.

Dutifully yours,
Lieutenant Robert C. Graves

REPORT OF THE BOW RESCUE SQUAD

As of March 1989 the Bow Rescue Squad has been functioning under the auspices of the Bow Fire Department. The reason for this is the lack of volunteers needed to function with the Rescue Squad. We are now the "Rescue Company" of the Bow Fire Department.

Over the past year we answered seventy-one (71) calls for medical assistance:

- Bow Residents - 39
- Motor Vehicle Accidents - 10
- Fire Department Standbys - 7
- Non Residents - 5
- Industry - 2
- Mutual Aid - 3
- Service Calls - 5
- Number of patients transported
to Concord Hospital - 47

We currently have four (4) Active and two (2) Associate members. All members have maintained certification in C.P.R. and as either Advanced First Aid-Emergency Care or Emergency Medical Technicians. All are licensed by the State of New Hampshire as Ambulance Attendants. We provide coverage to the Town, along with the assistance of eight (8) Fire Fighter E.M.T.'s from 6 p.m. to 6 a.m., seven days per week. We have four members who have achieved Advanced Life Support Skills, e.g. Defibrillation.

We would like to extend our appreciation for assistance rendered to the Squad by the Town Highway Department, the Fire Department and the Police Department.

In case of an Emergency, the Rescue Squad may be reached by calling 225-3355. Be sure to give your name, location and nature of the emergency.

Respectfully submitted,
ROBERT J. LOUGEE
Director, Rescue Captain

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During calendar year 1989, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without written permission of a Forest Fire Warden, children and debris burning fires that escaped control. All of these causes are preventable, but only with *your* help.

Please help our town and state forest fire officials with forest fire prevention. By New Hampshire State law (RSA 224:27), no person, firm or corporation shall kindle or cause to be kindled any fire, except when the ground is covered with snow, *without first obtaining a written permit from the Forest Fire Warden of the town where the burning is to be done.*

In order to eliminate false alarms, it is advisable to notify your local fire department whenever you intend to do any outdoor burning.

Violations of RSA 224:27 are a misdemeanor and you are also liable for paying all fire suppression costs (RSA 224:28 and RSA 224:36).

The State of New Hampshire, Division of Forests and Lands assisted many towns in wildland fire suppression during 1989 including several large fires in the Concord and Chesterfield areas, as well as the 100 acre fire on Mt. Belknap in Gilford, New Hampshire.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden or the Division of Forests and Lands at 271-2217.

Forest Fire Statistics — 1989

Number of Fires Statewide	550
Acres Burned Statewide	553.75
Cost of Suppression	\$93,957.00

Respectfully submitted,
RICHARD CHASE, Ranger
ROGER S. ORDWAY, SR., Warden

BOW FIRE DEPARTMENT

The Fire Department answered 299 Fire and Rescue calls last year. This reflects an 18% increase over 1988. The average response time was 3.0 minutes. The breakdown of calls is as follows:

Appliance Fires	3	Building Fires	1
Brush & Grass Fires	7	Chimney Fires	7
Drills	8	Dumpster Fires	1
Electrical Problems	5	Extinguished Fires	5
Fire Alarm Activations	33	Furnace Problems	1
Gas Leaks & Fuel Spill	5	Investigations	5
Medical Aid	51	Mutual Aid	46
Non Permit Fires	4	Odors in Building	2
Outside Fires	5	Search	0
Service Calls	10	Smoke in Building	3
Smoke Investigations	4	Vehicle Accidents	40
Vehicle Fires	18	Wires	32

With new guidelines for Fire Fighter Safety, many changes are taking place within the department, such as no riding on the outside of the apparatus, the use of seat belts and we had to purchase lifeguard units to be worn by fire fighters working inside of burning buildings. This unit will sound a very loud alarm if the fire fighter becomes immobile for more than 30 seconds.

During the past year the fire department has drilled at least once a week. In addition we conducted several special drills and training sessions. We also participate in as many mutual aid drills as possible, plus we host one or two drills here in our own town. The department is working especially hard on hazardous material response, medical response and on an incident command system.

Remember to report a fire or medical emergency; the number is 225-3355.

Respectfully submitted,
ROGER S. ORDWAY, SR.

BOW CONSERVATION COMMISSION

The Bow Conservation Commission reluctantly accepted the resignation of Donald Gott and Chairman John Urdi in March and June, respectively.

John Urdi's many years of service on the Commission as both a member and chairman will be greatly missed. Many thanks for all his efforts in behalf of the town.

Numerous dredge and fill applications were reviewed by the Commission and, where necessary, action was taken with the N.H. Wetlands Board to correct potential damage to town wetlands.

Forest management plans and timber harvest were awarded on lot 97 and completed. Plans for additional cutting are being reviewed due to downturn in the economy and particularly the building trades, resulting in very low stumpage prices.

The wildlife management report on lot 126 (adjacent to NHHD Lot 88 et al) and timber cruises were completed.

Currently the Commission is looking for applicants for consideration for Youth Conservation Camp in June.

The Town of Bow Tree Farms, comprising 1,394 acres, were inspected this year by the Town Forrester, Merrimack County Forrester and the President of N.H. Timberland Owners Association. The group was impressed with the forest management plans to date.

The Commission oversaw the award and near completion of the town wetland study necessitating numerous work sessions for research and compilation of data and meetings with consultants to approve work as completed. Eight specific wetlands were identified and designated as prime wetlands by the Commission.

As part of the wetlands study and ordinance was drafted by the consulting firm which was reviewed by the Planning Board for their consideration before scheduling public meetings and bringing the issue to a vote during the coming year at Town Meeting.

Arthur Cheney and Philip Downie were appointed to fill vacancies on the Commission.

The Bow Conservation Commission will continue working with other town agencies to improve town forest productivity and protect town wetlands and other natural resources.

CONCORD REGIONAL SOLID WASTE/ RESOURCE RECOVERY COOPERATIVE

I 1990 BUDGET

	<u>Item Budget</u>	<u>Subtotals</u>
1. Wheelabrator Concord Co. Service Fees		
(a) 1990 budgeted service fee	\$ 2,057,209	
(b) Reserve for 1989 reconciliation	<u>40,000</u>	
		\$ 2,097,209
2. Bypass Disposal Cost Reserve		137,500
3. Franklin Residue Landfill		
(a) Operations and Maintenance	643,561	
(b) Bond and Loan Payments	523,945	
(c) Expansion Sinking Fund	521,224	
(d) Closure Sinking Fund	<u>127,598</u>	
		1,816,328
4. Cooperative expenses, including consultants & studies		<u>435,725</u>
Total 1990 Budget		\$ 4,486,762
Less, portion of surplus applied to 1990 budget		(99,092)
Net — to be raised by Cooperative Member Municipalities		\$ 4,387,670

@ GAT of 120,375 cost = \$36.45/ton

II. Summary The 1989 year was an exciting one for the Cooperative as the long awaited Plant and Ashfill came on line in time and within budget. When all factors are complete we will be entering the 1990 year with an anticipated \$50,000 in our Operating Reserve Fund and the same Tipping Fee of \$36.45 per ton as we had in 1989. Including the shakedown period from April 89 to Aug. 28, 1989 and the Commercial Operations from Aug 28 to Nov. 30, 1989 the Plant processed 107,285 tons of refuse and the Co-op disposed of 41,529 tons of ash through its Operator, J.D. McLeod at the Ashfill. It is anticipated that the Co-op Towns/Cities will dispose of 120,000 tons of trash in 1990 which will be about 78% of the Plant capacity. Once again many thanks to the Co-op representatives who have spent many evenings in guiding this project to its present status.

RONALD H. FORD
Project Director

BOW HIGHWAY SAFETY COMMITTEE

The Bow Highway Safety Committee met several times during the past year. The Committee reviewed and updated that portion of the Town's 6-year Capital Improvement Plan which affects town roads/intersections and their safety.

The Committee submitted its report to the Planning Board recommending the following schedule of capital improvements for our town roads and intersections:

- a. Summer 1990 — Improve the intersection of Page Road and Brown Hill Road using the engineering plans developed during 1989-90 under contract to the town.
- b. Summer 1991 — Improve the intersection of Bow Center Road and Bow Bog Road referring to plans developed by Fortune Realty in conjunction with their sub-division's impact on that intersection.
- c. Summer 1992 — Improve the intersection of Logging Hill Road and Albin Road using the engineering drawings currently being prepared by the State of New Hampshire.
- d. Summer 1993 — Begin to upgrade the South Bow Dunbarton Road to meet the Town's road standards. This upgrade is to be done using developer's contributed fees as well as a town share.
- e. Summer 1994 — Begin engineering work for the upgrade and improvement of Hollow Road. In addition, realign Grandview Road just west of the I-93 overpass to straighten a bad s-curve and improve visibility along that portion of the road.
- f. Summer 1995 — Lessen the curvature of River Road at its intersection with Ferry Road to improve travel and visibility.

Although the Planning Board adopted these recommendations and incorporated them into its 6-year Capital Improvement Plan, the Board of Selectmen following the recommendation of the Town Manager disapproved the funding for the Highway Safety Committee's road safety improvement schedule beginning in 1990.

The Highway Safety Committee does, however, wish to thank the Road Agent and the Highway Department for their work during the Summer of 1989 improving the dangerous curve mid-way along Allen Road. Thanks to suggestions offered by the school bus drivers, the Highway Department cut brush, removed trees, and trimmed tree limbs improving visibility at several critical locations along the town's road network. The Highway Department also improved and/or upgraded the guard rails and cables at many key locations.

At the Committee's recommendation, the Highway Department also removed

the large bushes in the triangle at the intersection of Grandview Road and Short Street. The Bow Garden Club is planning to again beautify this area with some new plantings in the Spring.

In conclusion, further safety improvements to our roads and intersections are being held in abeyance pending the Town's commitment to support the Planning Board's 6-Year Capital Improvement Plan and to provide the necessary funding authorization for these safety improvements.

Respectfully submitted,
ERIC ANDERSON, Selectmen's Representative
PETER CHENEY, Police Chief
ROGER ORDWAY, Fire Chief
LEIGHTON CLEVERLY, Road Agent
ROBERT LOUGEE, Rescue Squad Director
JAMES BUCKNAM, Citizen Representative
PETER STIO, Citizen Representative

HIGHWAY DEPARTMENT

In 1989 the Highway Department rebuilt the east end of Woodland Circle. We also completed the realignment of a section of Allen Road which the Highway Safety Committee considered dangerous.

A computerized road surface management survey was also completed in 1989. This study will give the Highway Department, Selectmen and Budget Committee an idea of what costs to expect in the near and distant future, as well as a list of needed road repairs and techniques to correct existing conditions.

LEIGHTON A. CLEVERLY
Road Agent

BAKER FREE LIBRARY

The entire year was a very exciting 75th Anniversary year for the library. In January the first Friends of the Library meeting was held in the Baker Room. Over the past year the library has experienced an added dimension of enthusiasm and wonderful programming because of the diverse membership of the Friends and our dedicated staff. The April Open House was the first Friends project and was attended by hundreds of people. Local crafts people were kind enough to display their talents for the day, wonderful children's activities were carried on in the children's room while a clown made balloon animals. The Baker room was used for additional display space and a booksale occurred simultaneously in the basement! Refreshments were served and an enjoyable experience was had by all who attended.

Our Wednesday morning story hour continues to mushroom with enthusiastic Moms, Dads and eager listeners. Lucie LaChance relocated to North Carolina in May. We had a farewell party and wished her entire family the best. We are very thankful for the efforts of our readers this year who are Barbara Houldsworth, Donna Hopkins and Judy Finn-Acone.

During the summer reading program Children's Librarian Betty Waite reported that the Paddington Bear and Garfield groups involved 66 children who read over 1,500 books. The Audubon program held in July gave those who attended a chance to see a live owl in the Baker room and to ask any questions they might have about owls. The final party for both programs was a stuffed Pet Show judged by Friends of the Library, Jeanette Whaland, Linda Hoffman and Carolyn Bartlett. Every pet and child was awarded a ribbon for categories such as best dressed, longest nose and most loved! A drawing was held for visual parts of the summer reading program and special books.

In September we re-arranged the Children's room to accommodate the growing number of Active Listeners on Wed. a.m. and to prepare for our Diamond Jubilee celebration. Laura and Thomas Bartlett supervised the moving of almost 1/2 of the Children's collection and rearranging of furniture by their Mom, Carolyn, Lorna Landry and Jeanette Whaland.

The month of October was very special because 75 years ago on the 29th the library first opened its doors. A month of Activities were planned and enjoyed by all age groups.

A special birthday bookmark contest was held for both schools and any interested adults. The winning design was entered by Seth Boyd. The bookmarks were distributed throughout the year and the Friends group had T-shirts made up with the design on them for a fund raiser. Ruth Ann Pond worked up several puzzles for the older school children that dealt with the library and its history. Everyone enjoyed all the hard work that went into the challenging creations.

The final Diamond Jubilee celebration sponsored by the FOL occurred at 8 p.m.

on Oct. 19. A wonderful turnout enjoyed former Director, Helen Robinson and her special memories of the library and town.

Another historical event on a smaller scale was the issuing of library cards and the re-registration of all borrowers. Everyone has been wonderful about adapting to the change which occurred in order to comply with new confidentiality legislation that was passed in July. Our borrowers are still just as important as before they were assigned a number and we will continue to give friendly service to all.

Our Wednesday morning storygoers were again treated with a visit from Bow's very own Santa. Our special thanks go out to Santa who brings a special experience to all of us every December.

As the new decade begins we are pleased to be expanding our hours and look forward to fulfilling your informational and recreational reading needs in the nineties.

Respectfully submitted,
LINDA KLING
Director

ANNUAL REPORT OF THE EMERGENCY MANAGEMENT COMMITTEE

During 1989 the Emergency Management Committee was quite active until we finished the Hazardous Material Plan for the town. The data collected will be put on the Town Computer and will be an annex to our Basic Emergency Management Plan. During 1990 the Town will send out a letter to our industrial businesses quarterly to keep our Emergency Management Plan up to date on Hazardous Material Planning.

If you are a new business in town and your manufacturing products require any M.S.D.S. forms or Tier 2 forms, they must be reported if they are over 500 pounds, under the Federal Title 3 Superfund Reporting Act.

Many thanks to all our committee who are working on this project and the businesses who have cooperated with us.

Respectfully submitted,
JAMES GOODWIN
E.M. Director

REPORT OF TOWN BUILDING INSPECTOR/ TOWN ENGINEER

To the Residents of Bow:

I hereby respectfully submit my 1989 report.

Please find within the results of the past year.

My predictions of last year did not hold true. Though the economy has slowed, it will probably be best reflected in the 1991 totals, at this time Bow has not been greatly affected. This year 45 single family building permits were issued vs. last year's 46 permits.

The average estimated cost per home in Bow for 1989 was roughly \$130,000. per home without land, septic, well and landscaping.

Commercial growth continues to benefit the town's tax base. The following commercial property has been added this year:

Hampton Inn Hotel
Grist Mill Restaurant
P.S.N.H. (addition)
501 South Street Office complex

Total permits issued for 1989 was 168, this includes additions, pools, garages, non-residential buildings, etc.

The following is a breakdown of inspections completed. Many buildings are still in various stages of completion and cannot be totaled in at this time.

Foundations	167
Rough framing	121
Rough electrical	117
Rough plumbing	79
Chimney/Fireplace	68
Final Inspection	101
Certificate of Occupancy	95
TOTAL	748

Total amount of revenue collected thru this department in 1989 was \$41,007.36.

Respectfully submitted,
BUD CURRIER
Building Inspector/
Town Engineer

BOW BUDGET COMMITTEE REPORT

The Budget Committee met twice a week, from October through mid February, reviewing line by line items on both municipal and school district budgets.

By statute, the budget committee acts as an arbiter, given the power by the legislature to reconcile the various appropriation requests in order to maintain the tax load within manageable proportions. Although the committee puts an upper limit on appropriations, it also functions as an information agency, through public meetings and reports, and assists the voters in voting on budget problems.

Our recommendations were what the committee felt prudent and fiscally responsible for the Town. Many were very difficult to make.

The committee supported the Town Manager's consolidation of the cemetery and ball park maintenance under the direction of the Town's Road Agent. It also supported the Town Manager's position to postpone non-urgent expenditures in the Capital Improvement Program until the program can be reconstructed under a Capital Reserve Fund and a Capital Outlay Fund. The Town Manager and Committee also felt this program should be reduced due to the present regional economic climate.

The budget committee recommended the teachers' contract be kept, this year, at its current scale of eighteen steps and not to compress the step increases to twelve as previously negotiated by the School Board. This recommendation will allow a teacher to increase in both step and track within this schedule. The overall increase is 3.7% depending upon the teacher's position in the schedule. In the 1989-90 school year the average teacher in Bow earns \$33,407. With our recommendation, the 1990-91 average salary will increase to \$34,643 and not \$36,212 as recommended by the school board. The committee researched data from several sources throughout New Hampshire and did comparatives of equal school districts, including those in our own School Administrative Unit (SAU 19). The committee felt the School Board increases were inappropriate for the Town to absorb at this time.

The bottom line will be up to you, the voters of the Town of Bow. Above all the Committee felt we represented the taxpayers' interests without compromising municipal services or quality education for our children.

Respectfully submitted,
RICHARD F. BEAN, Chairman
MILTON S. BROWN, Vice Chairman
KENNETH J. STRACHAN
GEORGE T. HAMILTON
JOHN T. LYFORD
JOHN R. BURTON
SARA H. SWENSON, Selectmen's Representative
ROBERT C. GOSLING, School Board's Representative

PLANNING BOARD

The dramatic slow down in the real estate development marketplace had a significant impact on the work of the Planning Board during 1989. As in the past, the Planning Board held at least one regular meeting each month and one work session. During 1989, the Board reviewed and approved a minimal number of applications for subdivision approval, site plan review, and miscellaneous matters such as boundary line adjustments.

Several months of prior committee work resulted in the adoption, in early 1989, of a complete revision to the Town Site Plan Review Regulations. The new Regulations clarify certain ambiguities in the old Regulations, contain a new detailed section concerning procedures, and update the prior Regulations to conform with existing developments in the law. Another sub-committee was charged with the responsibility of reviewing the provisions of the Town's existing Zoning Ordinance and making recommendations for amendments to the Zoning Ordinance. The result of that sub-committee's work is several of the Warrant Articles relative to Zoning Amendments which will be voted on at this year's Town Meeting.

The Board is also responsible for the continued update of the Capital Improvements Plan for the Town. As with prior years, the Board was aggressively involved in the capital improvements planning process in 1989. The goal of the capital planning process is to assure that costs for capital items are controlled and equalized on a long-term basis so as not to adversely affect your tax burden in any given year. While the Capital Improvements Plan was severely curtailed in this year's Town budget because of the perceived need to limit expenditures, the Plan should be fully funded in future years.

Using the last of a \$12,000 grant from Central New Hampshire Regional Planning Commission, the Planning Board obtained Office of State Planning approval of the Town's Water Resource Management and Protection Plan. That Plan served as the blueprint and basis for a joint committee of the Planning Board and the Conservation Commission which drafted two recommended amendments to the Zoning Ordinance. The proposed Wetlands Protection Ordinance and the Aquifer Protection Ordinance would impose restrictions on those types of developments which pose the greatest threat of pollution to our surface or ground water resources. Both proposed Ordinances will also be voted on at this 1990 Town Meeting.

The Master Plan Revision Committee of the Planning Board was also active this year. The Town Master Plan was last revised in 1980 and needs to be updated at this time to conform with changing conditions in the Town and the requirements of State laws. A community survey was circulated by the Committee and once results are tabulated, the drafting of the revised Master Plan will begin. A separate report of the Chairman of the Master Plan Revision Committee appears elsewhere in this Town Report.

The Planning Board also recognizes and acknowledges the excellent professional

services provided to the Planning Board by the Central New Hampshire Regional Planning Commission. Under the terms of a contract between the Town and the Commission, the Commission provides professional land planning services to the Town one day a week, as well as at each of the Board's regular work sessions and meetings. The presence and assistance of the Planner has not only been a tremendous benefit to the Town's citizens who have filed matters to be presented to the Board, but also to the Board itself. The quality and caliber of the Board's review of various applications before it has increased as a direct result of the assistance of the professionals.

As a final matter, the members of the Board themselves deserve a tremendous thank you and acknowledgement of a job well done. They have been a dedicated and hardworking group who have nothing but the best interests of the Town in mind as they carry out the Board's business. The Town is truly fortunate to be served by these volunteers.

CENTRAL NEW HAMPSHIRE REGIONAL PLANNING COMMISSION

The Central New Hampshire Regional Planning Commission (CNHRPC) is an association of municipalities in Central New Hampshire. Seventeen towns and the City of Concord are within Merrimack County and two towns are within Hillsborough County. Sixteen towns, the City of Concord, and Merrimack County are members in fiscal year 1990. The Town of Bow is a member in good standing of the Commission.

The CNHRPC is organized under RSA 36:45-53, which states that the purpose of the Commission is to prepare a coordinated plan for the development of the region. The statute also enables us to assist communities with local planning activities.

Three planners and one support person are currently employed by the CNHRPC. The staff prepares regional plans and provides professional planning assistance to member communities.

Our accomplishments over the last year include:

Housing: We published *Affordable Housing Needs in the Central Region* in September, 1989. The report identifies the number of low and moderate income housing units needed and provided in the Region, allocates the deficiency to individual municipalities, creates targets by community for affordable housing, and recommends strategies for use by communities to address local housing needs.

Regional Plan: We adopted and published the "Goals and Objectives Statement" of the regional master plan. Being the heart of the plan, each objective will be addressed. The regional land use element should be completed this fiscal year.

Solid Waste: The Commission prepared and the Central New Hampshire Solid Waste District adopted the District *Solid Waste Management Plan*. The plan contains a long term strategy to deal with landfill and incineration requirements, recycling, septic and sludge disposal, and household hazardous waste collection through the year 2005.

Recycling: The Regional Recycling Task Force is investigating methods to implement efficient, comprehensive, and cost-effective recycling throughout the Region. The CNHRPC should soon receive a grant through the Governor's recycling initiative to assist municipalities in obtaining and installing equipment necessary to operate recycling programs.

Household Hazardous Waste Collection: The CNHRPC organized a household hazardous waste collection on October 14, 1989. Cosponsors were Wheelabrator Concord, LP, the City of Concord, and the Towns of Allenstown,

Boscawen, Bow, Canterbury, Dunbarton, Hopkinton, and Pembroke.

During 1989 CNHRPC activities in Bow included the continuation of the circuit rider planner service; assisting the zoning subcommittee in preparation for the 1990 Town Meeting; providing a sample survey to the Business Development Committee; responding to surveyor's and soils scientist's inquiries about Bow regulations; assisting the Planning Board in evaluating its first fiscal impact analysis; and assisting the Master Plan Committee in the preparation and distribution of the community attitude survey and the development of an outline and schedule for the preparation of the master plan update.

ZONING BOARD OF ADJUSTMENT

During 1989, the members of the Bow Zoning Board of Adjustment held regular monthly meetings, one special hearing and twenty-two regular public hearings.

Again this year the Board has had to interpret the Ordinances with respect to gravel pits, off-site and over-sized signs, a hotel/motel, sideline setbacks, a restaurant, and cluster/condominium houses, etc. We have been fortunate to have the Planning Board help us deal effectively with our actions.

Our policy of on-site inspections prior to any public hearing gives us further insight into the reasonable interpretations of our zoning ordinances.

Monies taken in by the Zoning Board of Adjustment for the 1989 year are as follows:

18 applications @ \$60.00 each equals: \$1,080

We thank the townspeople for their cooperation at our meetings and look forward to their input in 1990. The Board is most appreciative of the support by the Board of Selectmen and all other Boards and Commissions, together with Mr. Ralph Currier, with whom they have worked during 1989.

BUILDING ADVISORY COMMITTEE

All town buildings were inspected by various members of the committee: Municipal on Grandview Road: Fire Station/Community Building, Knox and Bow Center Roads: Old Town Hall, Bow Center Road: Old School House, Bow Center Road: Bow Bog Meeting House, Bow Bog Road: and the Highway Garage/Dog Pound, White Rock Hill Road.

The Committee is extremely pleased with the amount of repair work which has been performed this year on the Town Buildings, per the Selectmen's efforts. Exterior painting, repair of foundations, installation of a toilet facility in the Old Town Hall, and many other items too numerous to include in a summary report. Detailed report is on file.

It is important for the Town of Bow to have a Capital Reserve Fund just for the maintenance of the buildings. The Committee recommends the Selectmen place a certain amount of monies in this Capital Reserve Fund annually so as to avoid the need of an emergency allocation in some future years.

Magician B.J. Hickman entertains Bow children at the Town of Bow annual Halloween Party held in conjunction with Bow Parks and Recreation Dept.

BOW PARKS AND RECREATION COMMISSION

The Bow Parks and Recreation Department began the first half of 1989 under the direction of Mark D. Rourke, outgoing director, and ended its year under new director Charles W. Christy. The year was extremely busy with the expansion of existing programs and the addition of new programs including Christmas 1989 school vacation trips and supervised holiday activities at the Community Center.

Program revenue and user's fees continued to be a high priority for the Parks and Recreation Department in 1989. Over \$25,000.00 was collected in the form of program and user fees in 1989 which represented over one-third of the Department's total operating budget for 1989. These fees were deposited into the town's general fund. The "pay as you go" philosophy is found throughout the department's many programs as the department continues to place more of the financial burden of programs on the program participants rather than all on the town taxpayers.

Programs in 1989 for all ages continued to be diverse and many. Family bus trips were popular with trips to the Red Sox, Nutcracker Ballet, and Ringling Brothers Circus. Class-instructional programs for children included ice skating, dancing, performing arts, kindercooking, and skiing. Even three year olds were found participating in the very popular kindergym program while the Bow Young at Heart senior citizen group continues to enjoy their outings to the mountains and other N.H. attractions. One hundred and eighty-five children visited Santa early in December at a party hosted by the Town and held at the Community Center. Programs for adults included a variety of craft classes as well as physical fitness programs with the "Body Tone Up" classes proving particularly popular. Other programs included Volleyball, Basketball for Men, and activities such as the A-I Square Dancers.

The Bow Family Arts Series at the Community Building continued to be popular with the appearances of eight different artists throughout the year. Fall 1989 highlights included the appearance of magician B.J. Highman who played to an overflowing crowd at the Bow Town sponsored "Halloween" party. Mime Michael Zerphy played to a standing room only crowd at the Center after his highly successful "Artist in Residency" program at the Bow Elementary School sponsored by the Bow PTO and the Parks and Recreation Department. The Bow Family Arts Series will continue to be a part of the department's on-going programs and the Department continues to receive matching Arts grants from the N.H. State Council on the Arts for many of the artists participating in the program.

The eight week summer program held at the Bow Memorial School was once again well attended. Special hours were set aside for younger children five through eight years of age which turned out to be well received by mothers and children alike. Upwards of 50 pre-school children at a time were seen attending the summer kindergym classes. Trips to state parks and N.H. special tourist attractions

proved to be extremely popular with children of all ages who attended the summer program and outings.

THE PARKS AND CEMETERIES CREW under the direction of part time Foreman Chris Powell continued to be responsible for grounds maintenance at all town parks and their four ball fields, as well as five cemeteries, the Baker Free Library, the Bow boat ramp, Town Fire Ponds, Rescue Building area, Bow Bog Meeting House and the Old Town Hall and School House. Besides the daily ongoing mowing of grass and picking up of trash at all areas and the dragging and lining of baseball and soccer fields, the department made a special effort to spruce up all parks, cemeteries, and the Baker Free Library grounds this past summer and fall. The maintenance crew composed of entirely part time help painted and repaired fences and removed small unsightly trees and brush at all cemeteries and along ball field outfields. They also re-cut, fertilized and removed weeds from baseball infields along with repairing benches and fences, and rebuilt and painted all bat and storage boxes at the ballfields. Foreman Powell did a yeoman's job in maintaining the town ice skating pond almost entirely by himself.

The Parks and Recreation Department also provided new wooden carved signs at the town cemeteries along with seasonal plantings at the cemetery entrances. Additional flower plantings and fruit trees were also installed at the Baker Free Library grounds.

The Hanson Recreational Complex is still awaiting an influx of volunteers and machinery to help complete this important project. The area is still planned to include a baseball field, large soccer field and additional parking area. Persons, companies, and service clubs who are interested in lending a helping hand with this project are urged to contact Jim Loomis, the Parks and Recreation Director, or any one of the Bow Parks and Recreation Commission members. Special thanks also goes out to the Bow Rotary Club for the pledging of a substantial donation to help complete the Hanson field.

The Parks and Recreation Department wishes to acknowledge and thank the staffs of the Bow Highway Department, the Bow Memorial and Elementary Schools, the Bow Athletic Club, the Bow school bus garage, the Bow Police Department, Town Hall employees and the Selectmen for their cooperative efforts this year. In addition the Department wishes to thank the citizens of Bow for their support this past year and for the many volunteer hours you have donated to the Department for their special events and trips.

Respectfully submitted,
CHARLES W. CHRISTY, Parks and Recreation Director
JIM LOOMIS, Chairman
BOB GOSLING
CINDY GOW
ROLAND ROBINSON
ERIC ANDERSON, Selectman

BOW HISTORICAL COMMISSION

The Historical Commission meets each month on the third Thursday at 1:00 P.M. in the Municipal Building on Grandview Road. Some initial planning has been done for future use of the Old Town Hall on Bow Center Road. Various community groups have shown interest in developing use of the building.

This past year has been spent establishing priorities in repairs of the Town Hall. The Commission determined that the Old Town Hall is needed in Bow for general meetings.

CONCORD REGIONAL VISITING NURSE ASSOCIATION

The Concord Regional Visiting Nurse Association continues to offer three major health services to the residents of Bow: Home Care, Hospice, and Health Promotion.

Home Care Services respond to the health care needs of those patients with acute or chronic illnesses that require skilled professional and paraprofessional care so they may return to or remain in their homes. Emphasis is on promoting independence and maximum functioning of the patient within the least restrictive setting.

Hospice Service provide professional and paraprofessional services to the terminally ill patient with a limited life expectancy. The goal is to enhance the quality of the patient's remaining life by helping him/her remain at home in comfort and dignity. Emphasis is on pain and symptom management and skilled intervention to meet the patient's special physical and emotional needs. This is the only certified Medicare Hospice Program in New Hampshire.

Health Promotion Service focus on the low and marginal income families and individuals to prevent illness by professional assessment and screening for health risks and needs, by early intervention to prevent, eliminate, or minimize the impact of illness and/or disability, and by anticipatory guidance and health teaching. Services rendered in the clinic setting are: child health, family planning, sexually transmitted disease, adult screening, immunizations, and HIV testing and counseling. Home visits are made in crisis situations or when needed health care cannot be given in the clinic. Senior Health services are provided at congregate housing sites. Professional and paraprofessional hourly home services are provided on a private fee-for-service basis. Emphasis is on promoting healthy children, families, and individuals through early intervention and health teaching.

Health Education and Instruction is part of each home visit or clinic visit.

Anyone in Bow may request service: patient, doctor, health facility, pastor, friend or neighbor. All requests are answered, but continuing home care will only be provided with a physician's order.

A call to the Concord Regional Visiting Nurse Association (224-4093) between the hours of 8:00am - 4:00pm seven days a week is all that is necessary to start services or make inquiries. A Hospice nurse is on call (224-4093) 4:00pm - 8:00am daily.

Federal regulations specify a charge is applicable to all visits. Fees are scaled for that person without a health plan who is unable to pay the full charge. However, for fee scaling, federal regulations require a financial statement be completed by the patient or responsible person. Town monies subsidize those visits that are scaled or that no fee is collectible.

This Agency is certified as a Medicare/Medicaid Provider, licensed by the State of NH and is a member agency of the United Way of Merrimack County.

Total visits made during the year October 1, 1988 through September 30, 1989:

	No. of Clients	Visits
Home Care	35	742
Hospice	6	231
Health Promotion	4	15
2 Blood Pressure Clinics		
Heptivax Clinic for Firemen		

HEALTH OFFICER'S REPORT

Inspection of several Day Care facilities for children.

Inspection of several Family Day Care facilities.

Investigation of failing septic systems.

Elementary School, lice problem, corrected when the medical procedure prescribed by the State of NH was followed.

Public Water supply on Route 3A, found to be contaminated. State of NH Water Pollution Department notified and was helpful in advising the owner of the water supply.

Attended the October meeting of the NH Health Officers Association.

Due to State of NH budget cuts, some of the inspection duties may revert to the towns.

Several, four to date, babies with AIDS have been born in New Hampshire. As of October 1 there were 126 cases of clinical AIDS, and it is estimated there are 4,500 HIV positive individuals in the state.

Rabies discussion. Cats now have a higher incidence of rabies than dogs, maybe cats should be included in the rabies vaccination law.

It was again stressed the value of Wet Lands, don't fill them in.

No reported Communicable Infectious Diseases.

Respectfully submitted,
ETHAN V. HOWARD, JR. M.D.
Health Officer, Town of BOW

BOW ATHLETIC CLUB
YOUTH SPORTS
Basketball — Baseball/Softball — Soccer

The Bow Athletic Club was founded in 1974 as a private nonprofit organization and has grown to serve over 600 Bow children annually. While the Athletic Club is separate from both the Recreation Commission and the Bow schools, it supplements both school teams and town recreation programs.

In 1989, approximately 300 boys and girls from first to eighth grade participated in BAC sponsored boys and girls basketball. The Club is affiliated with both the Merrimack Basketball League and the 89ers Basketball League and will again be fielding teams in both leagues in 1990. The first and second grade basketball clinic program headed by Paula Bailey realized excellent growth over the past year with over 70 children participating.

In baseball, the Athletic Club runs programs beginning with T-ball for first grade boys and girls and in-town instructional leagues for second, third and fourth graders. Our 11 and 12 year olders played against teams from other towns in the Kearsarge Mountain League. Bow also participates in the Concord Babe Ruth League in the 13 to 15 year old age group. Most of our baseball leagues participate in some post-season tournament play.

In addition to the softball instructional "clinic", BAC offers an eight team league softball program for grades four through seven which is perennially popular with both players and coaches. The Athletic Club also hosted the post season Invitational Softball Tournament, in which Bow placed third among six towns. Again in 1989, we fielded a successful Junior Miss softball team comprised of eager 13 to 17 year olds. Overall, almost 300 boys and girls participated in BAC baseball and softball programs.

Bow is in the Merrimack Valley Soccer League and one of our officers, Bob Gosling, is the league commissioner. In 1989, we fielded three third and fourth grade teams and three fifth and sixth grade teams in this expanding league. The Athletic Club also sponsors a boys seventh and eighth grade team for those not on the school team which plays against similar teams from Weare, Hopkinton and Concord. There is also a popular after-school instructional program for aspiring soccer players in first and second grade.

BAC has also initiated bringing the traveling North American Soccer Camp to Bow for a week of instruction conducted by English soccer coaches each summer. Last year 75 boys and girls enrolled in this five day camp held in Bow.

BAC programs are not funded by town taxes. Instead, money is raised from sponsors, raffles and donations from individuals and from the generous service organizations in Town, including Rotary and The Men's Club. Our annual budget runs around \$15,000. We have traditionally tried to keep registration fees modest

(currently \$7/child - \$10/family for most sports) so all who are interested can participate.

BAC teams in various sports have distinguished themselves again this year by winning tournaments and trophies. However, our programs are built on the belief that full participation by all is the most important part of youth athletics. We are proud of our tradition of creating additional teams and well balanced leagues to ensure that all who want to play, can play. All coaching is done by volunteers, many of whom have received their training and certification through the BAC sponsored National Youth Sports Coaches Association Program.

The involvement of Bow parents as coaches, referees, league commissioners and concession stand operators is often the envy of our counterparts in other towns. However, we can always use more help. If anyone is interested in sponsoring, coaching or refereeing in any sport, they should contact one of the officers of the Club. Notices of BAC's monthly meetings are run in the Monitor sports section, Round-Up column.

The Town's Annual Report gives the officers and directors the opportunity once again to express our gratitude to all of the Athletic Club's supporters. This past year saw the passing of Rick Ricard who was one of the Club's most ardent supporters. The members of the Club would also like to take this opportunity to extend their heartfelt sympathy and prayers to his wife and family. Rick's contributions to the BAC Programs were many and he will be greatly missed.

BOW CITIZENS FOR RECYCLING

We are a committee of Bow residents who are concerned about the need for recycling and are dedicated to helping the Town of Bow with its new recycling program.

Our group formed in the spring of 1989, when the recycling bins were first expected. The Town of Bow made arrangements to lease recycling containers from Waste Management but the containers had to be ordered. It was discouraging as the months dragged on but the containers finally arrived in late August.

On September 23, 1989 we held our Ribbon Cutting Ceremony at the transfer station. Waste Management donated refreshments and free pens and balloons. Many area businesses donated prizes for the event. Those people that brought in the largest amounts of newspaper, glass and aluminum cans that day received prizes. We all had fun and the recycling program was off and running.

Bow residents have been very supportive of this effort. The recycling is strictly voluntary, but many, many Bow residents are using the recycling bins. In 1989 (from September through December), the residents of Bow recycled:

- 27.65 tons of newspaper (not including the 11 ton load which was hauled away on January 4, 1990)
- 11.04 tons of glass bottles and jars, and
- 2,375 pounds of aluminum cans and 290 pounds of scrap aluminum.

The newspaper is being taken to a paper company in Massachusetts and the glass and aluminum is going to Manchester Recycling Corporation. If this material had been taken to the Penacook incinerator, the Town of Bow would have had to pay approximately \$1,480 in tipping fees and \$540 in transportation costs. There have been costs associated with recycling, but the savings and the revenues from the sale of the recycled materials have outweighed the costs. Thanks to all of you who have been recycling!

Our committee meets once a month at the Municipal Building — and everyone is welcome. For the date and time of our next meeting you may call me (Sherri Cheney) at 225-7529. Please join us. At the present time we are:

1. Checking the recycling containers at the transfer station at regular intervals to remove contamination (plastic bags, tops of jars, magazines, drinking glasses, etc.)
2. Researching the new options available to Bow to improve its recycling effort. This includes finding ways to increase our savings and ways to recycle other materials (plastic, tin cans, cardboard, etc.)

3. Working on education — by promoting recycling among the adults in Bow and by teaching children in the Bow schools about the reasons for recycling. This year we distributed informational sheets, held information meetings at the Community Building and helped to manage a recycling table at the sidewalk sale in Concord. Our chairman, Joellen Thompson, has spent many hours working with students and other groups on recycling issues. This committee would not have gotten off the ground without Joellen's endless work and enthusiasm. Thanks, Joellen.

Thanks also to all of the volunteers who have spent time at the transfer station. And a special thanks to Bill Capozzi who started recycling in Bow with his aluminum can project. He has continued to donate large amounts of his time by helping at the new containers and building us a new shelter by the recycling containers.

Come join us and help guide the future of recycling in Bow.

JOELLEN THOMPSON, Chairman
LAURIE SILKWORTH, Secretary for 1989

BOW GARDEN CLUB

BOW GARDEN CLUB is an organized group who meet monthly for the purpose of studying and learning about garden related activities such as Horticulture, Conservation, Landscape Design, Artistic Design as well as Environmental Concerns.

In 1989 special emphasis was devoted to horticulture with a question/answer period prior to the business session. The Horticulture Chairman displayed specimens at each meeting which were identified by the botanical (latin) and common name. Plants included vegetables that would grow to productivity in the short season in New Hampshire as well as those which survive the extreme cold. This exercise was to keep members abreast of the newer developments as well as recognizing old plants.

Likewise, newer trends in the artistic have been demonstrated by experienced artists in workshops in which members participated. Each design was critiqued according to the elements and principles of design.

Qualified speakers were invited to instruct members on landscaping the home grounds with suitable plant material. Environmental concerns were discussed with emphasis on waste management. Following this lecture, members volunteered to assist with the recycling program in the town.

Bow Garden Club cooperated with other groups in the town by making corsages for the graduating class of Bow Memorial School, contributed to the BMS's 8th grade Conservation fund, made table arrangements for Bow Rotary Club's Recognition banquet, provided arrangements for the 75th Anniversary Open House for Baker Free Library.

Since education is a vital concern and the garden club has limited funds, contributions were made to the New Hampshire Federation of Garden Club's Scholarship Funds (3), the interest to be used for worthy students at the University of New Hampshire; contributions were made to David's House which is associated with the Norris Cotton Cancer Research Center in Hanover, and the Hugo Hurricane Restoration program.

Subscriptions were renewed to Wildlife and Ranger Rick magazines for Baker Free Library. The gardens at the Library and Town Hall were refurbished with blooming plants for the summer. At a greens workshop in November, Christmas wreaths were made for all the public buildings in the town.

Bow Garden Club is a member of the New Hampshire Association of Garden Clubs, Inc. and National Council of State Garden Clubs, Inc. from which newer developments and much information is obtained.

Membership is open to anyone who is interested in gardening and its related

activities. Contact any of the officers for information, time and place of the meetings. Long and lasting friends are made through gardening by sharing knowledge and talents.

MRS. CARL A. DAHLGREN

MRS. JOHN MUELLER - Vice President
MRS. PARKER SHAW - Secretary
MRS. VINCENT McCARTHY - Treasurer
MRS. CHARLES SMITH - Auditor

BOW FIRE DEPARTMENT LADIES AUXILIARY

The Ladies Auxiliary of the Bow Fire Department meets on the fourth Tuesday of every month at 7:30 P.M. Presently we have 28 members working to support our Fire Department, a group of dedicated, hard-working men concerned with the safety of the people in Bow. All ladies in town, 18 years of age or over, are cordially invited to join us.

Our activities for 1989 were as follows:

1. We serve meals and refreshments to firemen as needed during fires and drills in Bow.
2. We purchased special equipment for the Fire Department.
3. We served the Fire Warden's Association Supper.
4. We held two dances, one in April and one in November
5. We sent two Thanksgiving baskets to needy families in Bow.
6. We sent remembrances to sick and bereaved members.
7. We purchased patches and new uniform shirts for Fire Department and Rescue Squad members.

Officers for 1990 are:

President - COLETTE LEAVITT
Vice President - BARBARA ABBOTT
Secretary - DIANA PIROSO
Treasurer - GERRY BURTON

EXPLORERS

In the fall of 1987 the Fire Department began a program in conjunction with the Boy Scouts of America, called Exploring. The Explorer Post is a group of young people, ages fifteen to twenty-one, who have an interest in the fire service.

Post #520 actively trains with the Fire Department. They are supervised by the Firefighters, under the leadership of Don Eaton and Ken Judkins. The Explorers also play an important role at fire scenes assisting the Firefighters.

The Post, although relatively new, has already won many awards. They received several ribbons at the yearly musters held for Explorers throughout the state. In their first year, they received the Rookie Post of the Year Award from the Daniel Webster Council. In 1989, one of the Explorers received the Outstanding Female Explorer of the Year Award.

The Post is always looking for new members. Any male or female between the ages of fifteen to twenty-one, or fourteen years of age and having completed the eighth grade is eligible to join, and is welcome to attend any meeting. Meetings are held every Wednesday night from 7:00 to 9:00 p.m. We hope to see some new faces!

SQUARE DANCE CLUB

Our club was founded in May 1986 to promote Square Dancing in Bow for FUN, SOCIABILITY and its SOFT AEROBIC benefit. In fact our club motto is, "WE SHARE THE FUN!"

Another year of FUN dancing has passed and our Square Dance Club now enjoys "Squaring Up" on the second Saturday of each month from 8 to 11 P.M. at Bow Memorial School.

If you would like to experience this friendly, energizing, and contagious activity by learning to square dance, we invite you to call any of our enthusiastic board members. They would enjoy sharing the news and fun with you!

Our "INTRODUCTION TO SQUARE DANCING NIGHTS" are Monday, September 10th and 17th from 7 to 9 P.M. Lessons in Round Dancing start Monday, September 24th from 7 to 8 P.M. and Square Dancing lessons from 8 to 10 P.M.

We say, "If you can walk, you can Square Dance!". Please make plans now to join us and help "SHARE THE FUN".

For more information call Roy and Barbara Person at 224-6639 or Frank and Cathy Hirsch at 225-6234. YOU'LL BE HAPPY YOU DID!

BOW GIRL SCOUTS

The growth of the Girl Scout program in Bow is still increasing. We have added 30 new girls to our troop rosters this year. There are 180 registered girls in our town. Also we have added 3 new troops this year. This includes a Senior Girl Scout troop. We have also increased our leadership from 22 adults to 28 active women. In addition we have the distinction in our area of having the most registered adults.

The Girl Scout Promise states that we are to give service. The Bow Girl Scouts are continuously giving service to others. Examples of such service can be found in many of the activities the troops do. We have continued the project of providing Frozen Dinners for the Friendly Soup Kitchen in Concord, collecting and giving food to the Animal Humane Society, giving used toys to the Forgotten Children drive, helping with Campbell Soup Label drive, and assisting with the Preschool Hearing and Vision screening. During the holidays there are troops that visited the pediatric ward on Halloween, made ornaments and decorated the Concord Hospital Christmas tree. The Girl Scouts also assisted in the Community Tree Lighting. The Girls painted individual chalk boards for the 5th and 6th grade Math classes. Another troop adopted a teen during the Christmas season, while another troop helped with the writing of letters to Santa. Clothes were also collected and delivered to the Friends program. Giving service is still a main focus in our program and this is only a small sample of the many service projects.

The Girl Scouts still enjoy having fun. The girls still enjoy the Sleep-overs at the Children Museum, Boston Science Museum, SEE, and participating in the Discovery weekend. We also had girls who were aides to both the Discovery weekend and the SEE Camp-in. The older Girl Scouts and their Dads had an exciting sleep-over at the U.S.S. Massachusetts in Fall River, MA. This was a Dad and Girl weekend, the leaders only went to keep an eye on the Dads. The troop went on some exciting field trips this year, too. They went to Concord Academy of Hair, Cinderella Modeling school, saw a play at Notre Dame College, played basketball in Dunbarton with a sister troop, and went to Horizon Bank in Concord. The Senior Girl Scouts spent a day at Sargent Camp (an environmental camp sponsored by Boston University).

To end an exciting year of service, fun and learning the town of Bow Girl Scouts held their first Camporee. It was held in Vermont, at Camp Farnsworth, where 140 girls and adults learned new skills and had fun. Several of the troops stayed overnight to sharpen their camping skills. This wonderful event was planned and executed by a Cadette Scout as a silver award project. Great Job, Kristen Wentworth.

I would like to take this time to thank all of you who help and support Girl Scouting, especially the wonderful leaders who give so much time to training, planning and their genuine caring.

Respectfully submitted,
MARIE McMILLEN
Community Chairman

BOW YOUNG AT HEART CLUB

In January, our new officers met to revise the by-laws of the club, which had become outdated. The revisions were presented to the members at the Feb. 8th meeting and were accepted unanimously. New booklets with the revised by-laws were made up and later presented to each member.

A new amplifying system was purchased and a gavel was presented by Albert Drescher.

In April, Mark Rourke, Recreation Director, was married and with sadness, we saw him leave Bow for a position in Mass., in September. Chuck Christie was welcomed at that time as the new Recreation Director, who will work with the club.

Letters were written to all Congressmen and signed by members, appealing for the repeal of the Catastrophic Illness bill, which was repealed by year's end.

In September our meeting time was changed to 1:00 P.M. because of conflict with church programs. The by-laws were amended to reflect this.

A pot luck lunch was held on March 22nd and a brown bag lunch in November.

In June, members served a ham dinner to the Rotary Club and on New Year's Day, 1990, served a breakfast for the Bow Men's Club. Our fall fair was held on October 28th. These were all fund raising events and were huge successes, due to the hard work of our members. Special recognition is given to Marge and Stan Flagg for their direction in these events.

Programs during the year were as follows:

February	— Slides by Olga & George Childs on Thailand
March	— Eric Anderson on the Town Warrant
April	— Slides by Olga & George Childs on Hong Kong
November	— George Michaels on Estate Planning

Blood pressures were taken by the Visiting Nurse Association in March.

In July our annual picnic was held at the Flaggs, with perfect weather.

In October, club members were invited to the Haunted House by the Bow Rescue Squad and in December, we were invited to a Christmas program presented by the Bow elementary students.

Trips taken this year were as follows:

May	— Indian Head Resort, Lincoln, entertainment and buffet lunch
-----	---

- June — Lake Sunapee boat cruise and New London Playhouse
- July — Bull Run Restaurant, Sterling, Mass., lunch and entertainment, Visits to Nashoba Valley Wine Company and Hebert Candy Company
- August — Motor trip to White Mts., with lunch at Storybook Inn, North Conway
- Sept. — Foliage trip to White Mts., lunch at Continental 93 in Littleton, and visit to Quechee Gorge

Our Christmas party was held at the Chateau Restaurant in Manchester on December 6th.

Donations to the club during the year were as follows:

Rotary Club	—	\$300.00	
J.C. Penney Company	—	25.00	
Hooksett Post #37, American Legion	—	100.00	
William Capozzi (from recycled cans)	—	<u>125.46</u>	(3 donations)
Total		\$550.46	

A special event was the marriage of two of our members, Alice Goley and Herbert Cate.

At year's end, our club membership stands at 63. Several members have been dropped from the roster for non payment of dues over a long period of time. We have had 8 new members join during the year and were saddened by the loss of 6 members; namely, Helen Wheeler, Helen Foss, Helen Mayo, Paul Lindquist, Florence Stone and Freda Howland.

Three members, Ibrey Gilbert, Margaret Whitney and Stearns Whitney, were voted in as honorary members during the year. This makes six honorary members in the club.

Attendance at our meetings has been good, with an average attendance of 36. Special recognition is given to the following who have had perfect attendance for the year: Rita Bonito, Mae Brunt, Herbert Cate, Alice Cate and Lester Holt.

Respectfully submitted,
 DR. LEO KLINGER, President
 PETER STIO, Vice President
 JENNIE BOONE, Secretary
 FLORENCE DICEY, Treasurer
 WILLIAM GIBBS, Auditor

BOW COMMUNITY MEN'S CLUB

The Bow Community Men's Club is in its 43rd year of service to our community, with currently 170 members.

The Men's Club has actively supported many projects, including Scouts, the Bow Athletic Club, Bow Memorial School, and the Bow PTO. Scholarships are also awarded to several Bow seniors for college, and also to the two outstanding ninth grade graduates of Bow Memorial School.

The primary fund raising activity of the B.C.M.C. is the popular Sunday breakfast where as many as 360 people have been served on a single morning. Breakfast is served every Sunday morning from November through the Sunday before Easter by enthusiastic crew members, with Ira Evans as coordinator.

We also have several social events each year, including the New Year's Eve Dinner Dance and Champagne Breakfast and Ladies Night (which last year was the Mt. Washington, Lake Winnepesaukee Dinner Cruise).

Club meetings are held on the 4th Thursday of the month from September through May at the Bow Community Building. Social hour is at 6:00 P.M. and dinner is at 7:00 P.M., followed by a guest speaker and business meeting. We welcome Bow residents and their guests to join us at any of these meetings. We look forward to meeting you!

Respectfully submitted,
STEPHEN RAWDING
President

ERNEST SIMMONDS, Vice President
KERRY MOLIN, Treasurer
TOM WORTHINGTON, Secretary

REPORT OF THE ANNUAL MEETING OF THE BOW SCHOOL DISTRICT

Tuesday, March 21, 1989

A duly called meeting of the voters of the Bow School District was held at the Bow Memorial School on Tuesday, March 21, 1989. The meeting was called to order at 7:00 P.M. by Moderator, Dom S. D'Ambruoso. The presentation of the colours was by members of Troop 75, Boy Scouts of America. The scouts were Eben Herrick, Chad Annis, Andy Richardson, Kevin Doerr, Jason Duckworth, and Walter Granger. Following the Pledge of Allegiance, Carroll French gave the Invocation. The Moderator reviewed the rules and expectations of conduct for the meeting. The reading of the School District Warrant resulted in the following actions being taken:

ARTICLE #1: Was moved and seconded. It was voted to accept the salaries of the School Board and fix the compensation of any other Officer or Agent of the District as they are printed in the Town Report.

ARTICLE #2: Was moved and seconded. It was voted to accept the reports of Agents, Auditors, Committees or Officers chosen as they are printed in the Town Report.

ARTICLE #3: Was moved and seconded. It was voted to authorize, under the provisions of RSA 198:20-B, the School Board to apply for, accept, and expend without further action by the School District Meeting, money from any source which becomes available during the 1989-90 school fiscal year provided that such expenditures be made for the purposes for which a school district may appropriate money. Further, that the School Board hold a public hearing prior to spending such money.

ARTICLE #4: Was moved and seconded. It was voted to establish a contingency fund to meet the cost of unanticipated expenses that may arise during the year and to raise and appropriate the sum of Ten Thousand Dollars (\$10,000) for this purpose, or to take any action in relation thereto.

ARTICLE #5: Was moved and seconded. It was voted to indemnify and save harmless from loss or damage any person employed by the School District and any member or officer of its governing board or administrative staff from personal financial loss and expense, including reasonable legal fees and costs, if any, arising out of any claim, demand, suit, or judgement by reason of negligence or other act resulting in accidental injury to a person or accidental damage to or destruction of property, in accordance with the provisions of RSA 31:105. Though the vote was originally petitioned to be a ballot vote, after some clarification of insurance questions, the petition was withdrawn and a voice vote was taken.

ARTICLE #6: To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and Agents, and for the payment of statutory obligations of the District and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the Town,

or take any action in relation thereto. It was moved by Richard Bean, of the Budget Committee, and seconded by Al Ward, to raise and appropriate the sum of Five Million Five Hundred Ninety-Seven Thousand Seven Hundred Ninety-Five Dollars (\$5,597,795.00) to satisfy Article #6. A motion was then made by Anna Marie Sparks to amend that amount to be Five Million Six Hundred Seven Thousand Seven Hundred Ninety-Five Dollars (\$5,607,795.00) with the suggestion that the additional \$10,000 be used for the purpose of a two-way communication system for the school buses. The amendment was seconded from the floor. A voice vote was taken and it was voted to accept the amended amount of Five Million Six Hundred Seven Thousand Seven Hundred Ninety-Five Dollars (\$5,606,795.00) as the sum of money to be raised and appropriated to satisfy Article #6.

Further lengthy discussion, motions to limit debate time at the meeting to Five (5) minutes, as well as a motion to cease debate and a re-consideration of that motion resulted in a lively meeting. A ballot vote was eventually taken, as requested by petition, and Article #6, as amended, passed with a count of YES - 245 and NO - 107.

While the ballot votes were being counted the Moderator called Robert Gosling, School Board member, to the podium to present a plaque to Mr. Robert Lynn for his years of participation on the Bow School Board and to recognize the many other contributions that he has made to our community. The plaque was accepted by his wife Valerie Lynn. He also informed the meeting of the current projects of the School Board, those being, a conversion of the buildings from electric heat to gas heat and an evaluation of the benefits of continuing our relationship with School Administrative Unit #19. Hearings on those subjects will be forthcoming.

ARTICLE #7: Further business conducted by the Moderator consisted of publicly recognizing two outstanding volunteers to the school — Mrs. Stephanie Thornton and Mr. Reginald Terrill.

A motion was made and seconded to adjourn the meeting. The meeting was then adjourned at 10:00 P.M.

Results of the School Election, March 14, 1989, were as follows:

1. School Board Member — 3 year term:

Robert R. Bannister — 526

Angelyn M. D'Ambruoso — 543

A recount of the above election results, requested by Mr. Bannister and held on March 24, 1989, resulted in the same tally as originally counted.

2. School Board Member — 2 year term (replacing Robert Lynn):

Betsy B. Miller — 913

Respectfully submitted,
HARRIET A. KRAYBILL
School District Clerk

BOW SCHOOL DISTRICT WARRANT
1990
Election of Officers
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Bow qualified to vote in District affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE BOW COMMUNITY BUILDING IN SAID DISTRICT ON TUESDAY THE THIRTEENTH DAY OF MARCH, 1990, AT TEN O'CLOCK IN THE FORENOON TO CAST BALLOTS FROM THAT HOUR OF SAID DAY UNTIL SEVEN O'CLOCK IN THE EVENING FOR THE FOLLOWING DISTRICT OFFICERS:

1. To choose a Moderator for the ensuing three years.
2. To choose a Clerk for the ensuing three years.

BOW SCHOOL DISTRICT WARRANT
1990
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Bow qualified to vote in District affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE BOW MEMORIAL SCHOOL IN SAID DISTRICT ON TUESDAY THE TWENTIETH DAY OF MARCH, 1990, AT SEVEN O'CLOCK IN THE EVENING TO ACT UPON THE FOLLOWING SUBJECTS:

1. To determine and appoint the salaries of the School Board and fix the compensation of any other Officer or Agent of the District.
2. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
3. To see if the District will vote, under the provisions of RSA 198:20-B, to authorize the School Board to apply for, accept, and expend without further action by the School District Meeting, money from any source which becomes available during the 1990-91 school fiscal year provided that such expenditures be made for purposes for which a school district may appropriate money. Further, that the School Board hold a public hearing prior to spending such money.
4. To see if the District will raise and appropriate the sum of Twenty Thousand Dollars (\$20,000.00) to conduct an architectural feasibility study, site investigation, and other items incidental to and necessary for planning the construction of renovation and additional school facilities for the Bow School District, or take any other action in relation thereto. (Recommended by Budget Committee.)
5. TO SEE IF THE DISTRICT WILL VOTE TO RESCIND THE INCREASES IN THE TEACHERS' SALARIES AND BENEFITS ATTRIBUTABLE TO THE COLLECTIVE BARGAINING AGREEMENT ENTERED INTO BY THE BOW SCHOOL BOARD AND THE BOW EDUCATION ASSOCIATION FOR THE CURRENT FISCAL YEAR; AND FURTHER, TO SEE IF THE DISTRICT WILL VOTE TO ESTABLISH A CEILING ON THE TEACHERS' SALARIES AND BENEFITS INCREASES NOT TO EXCEED THE CURRENT YEAR'S COST OF LIVING INDEX. (As petitioned by voters.)
6. To see if the Town will vote to limit increases in the School District budget to no more than 4% per year. (As petitioned by voters.)
7. To see if the Town will vote to school wage increases to no more than

4% per employee per year to include teachers, staff and administration.
(As petitioned by voters.)

8. To see if the Town will vote to adopt a line item budgetary process beginning with the budget for 1991. (As petitioned by voters.)
9. To see if the District will vote to increase the present school board from 3 members to 5 members under the provisions of RSA 671:4. (As petitioned by voters.)
10. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and Agents, and for the payment of statutory obligations of the District and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the Town, or to take any action in relation thereto.
11. To transact any other business that may legally come before this meeting.

GIVEN UNDER OUR HANDS AT SAID BOW THIS TWENTIETH DAY
OF FEBRUARY, 1990.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the School Board
Bow School District
Bow, New Hampshire

We have audited the accompanying general purpose financial statements of the Bow School District and the combining and individual fund financial statements of the School District as of and for the year ended June 30, 1989, as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1C, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Bow School District at June 30, 1989, and the results of its operations funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the School District at June 30, 1989, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles.

**BOW SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 1989**

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Bow School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to the governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Governmental Reporting Entity

For financial reporting purposes, in conformity with the National Council on Governmental Accounting Statement Number 3, "Defining the Governmental Reporting Entity," the School District includes all funds and account groups that are controlled by or dependent on the School District's executive or legislative branches. Control by or dependence on the School District is determined on the basis of budget adoption, outstanding debt secured by revenue, or general obligations of the School District, obligation of the School District to finance any deficits that may occur, or receipt of significant subsidies from the School District.

B. Fund Accounting

The accounts of the School District are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the School District:

GOVERNMENTAL FUNDS

General Fund — The General Fund is the general operating fund of the School District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds — Special Revenue Funds are used to account for

the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Included in this fund type are the Food Service and Federal/State Projects Funds.

FIDUCIARY FUNDS

Agency Funds — Agency Funds are used to account for the assets held as an agent for others by the School District. The Student Activities Funds are shown in this fund type.

C. Account Groups (Fixed Assets)

All governmental funds are accounted for on a spending or “financial flow” measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources”. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by most other municipal entities in the State, the School District does not maintain a record of its general fixed assets and, accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

D. Basis of Accounting

The accounts of the General, Special Revenue, and Agency Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or, in the case of judgments and claims against the School District when there is a probability that such judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due.

E. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the School District's operations. State Statutes require balanced budgets and the use of beginning general fund unreserved fund balance to reduce District assessments. In 1988-89, the beginning fund balance was applied as follows:

Unreserved Fund Balance Used	
To Reduce District Assessment	\$ 108,776
Beginning Fund Balance —	
Reserved For Encumbrances	<u>21,338</u>
Total Use of Beginning Fund Balance	<u><u>\$ 130,114</u></u>

F. Fund Balance

The portion of fund balance which has been legally segregated for a specific future use, or which indicates that that portion is not appropriable for expenditures, is shown as reserved.

Reserved for Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are therefore reported as part of the fund balance at June 30, 1989 and are carried forward to supplement appropriations of the subsequent year.

The General Fund reserve for encumbrances at June 30, 1989 is detailed in Exhibit A-2 and totals \$6,370.

The Special Revenue Funds reserve for encumbrances is detailed as follows:

Federal/State Projects Fund	<u><u>\$ 3,909</u></u>
-----------------------------	------------------------

G. Cash and Investments

At year end, the carrying amount of the District's deposits is \$440,493 and the bank balance is \$947,109. Of the bank balance, \$127,740 was covered by Federal depository insurance and \$819,369 was uninsured.

State Statutes authorize the District to invest excess funds in the custody of the Treasurer in obligations of the United States Government, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire, in certificates of deposit of banks incorporated under the laws of the State of New Hampshire, or in national banks located within this state or the State of Massachusetts. These financial statements report investments in certificates of deposit and savings bank deposits under the caption Cash and Equivalents.

H. Accumulated Unpaid Vacation and Sick Pay

Accumulated Unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Teachers may accumulate up to 120 days sick leave at a rate of 15 days per year. Support staff is entitled to 1 1/4 days per month sick leave for each month worked, with a maximum accumulation of 45 days. Vacation is granted in varying amounts based on length of service for employees other than teachers. Vacation pay accumulation does not exceed a normal year's allowance. Accumulated sick leave is indeterminable.

I. Interfund Transactions

During the course of normal operations, the School District has numerous transactions between funds, including expenditures and transfers of resources to provide services and fund capital outlay. The accompanying financial statements reflect such transactions as transfers.

J. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at June 30, 1989 are as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$ 5,575	\$ 3,956
Special Revenue Funds		
Federal Projects Fund	3,956	
Food Service Fund		5,575
Totals	<u>\$ 9,531</u>	<u>\$9,531</u>

K. Inventories

Inventory in the General and Special Revenue Funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

L. Total Columns (Memorandum Only) on Combined Statements

Total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of these data.

M. Comparative Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

NOTE — LONG-TERM DEBT

At June 30, 1989, the School District has no outstanding long-term debt.

Legal Debt Margin

According to State Law, School District borrowing may not exceed seven percent (7%) of the valuation of property based upon the applicable last locally assessed valuation of the municipality as last equalized by the Commissioner of Revenue Administration. For the year ended June 30, 1989, the Bow School District is using an equalized value of \$406,471,796 and a legal debt margin of \$28,453,026.

NOTE 3 — DEFINED BENEFIT PENSION PLAN

All Bow School District full-time employees participate in the New Hampshire Retirement System, a multiple-employer public employee retirement system. The payroll for employees covered by the system for the year ended June 30, 1989 was \$2,119,309; the District's total payroll was \$2,209,478.

All full-time employees are eligible to participate in the system. Employees who retire before age 65 are entitled to a retirement benefit equal to 1/60 of the employee's average final compensation multiplied by years of service. After attainment of age 65, the payment by the retirement system is reduced to 1/66 of the average final compensation. The system also provides death and disability benefits which are established by State Statute.

Covered employees are required by State Statute to contribute 5.0% of their salary to the plan. The School District is required by the same statute to contribute a percentage of the employee's salary, based on an actuarial valuation of the entire

State plan performed June 30, 1985. These contributions represented .71% for teachers and 2.67% for all other employees. The contribution requirements for the year ended June 30, 1989 were \$126,156, which consisted of \$20,190 from the School District and \$105,966 from employees.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the system's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among retirement systems and employers. The State retirement system does not make separate measurements of assets and pension benefit obligations for individual employers. According to plan administrators, the pension benefit obligation at June 30, 1987 for the system as a whole, determined through an actuarial valuation performed as of that date, was \$633,344,000. The system's net assets available for benefits on June 30, 1987 (valued at market) were estimated at \$792,615,988, leaving no unfunded pension benefit obligation. The percentage that the Bow School District has in relation to the entire plan cannot be determined.

NOTE 4 — FOOD SERVICE FUND

A. Deficit Fund Balance

The Food Service Fund has an unreserved fund deficit of \$1,222 at June 30, 1989. This deficit is the result of losses from operations from the current fiscal period.

B. Due to General Fund — \$5,575

The amount due to the General Fund at June 30, 1989 is the result of cash advances to and payments on behalf of the Food Service Fund by the General Fund during prior years. Repayment of this amount to the General Fund is contingent upon the ability of the Food Service Fund to produce revenues in excess of expenditures in the subsequent fiscal year.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of Bow:

I am pleased to present my fourth annual report to the citizens of Bow. In this town report you will find the annual report of the principals of your schools. This report gives a comprehensive overview of the accomplishments of the schools in Bow over the past year as they relate most directly to students and instruction.

The community has continued to grow and the student body in the schools likewise has grown. We have reached the point where we have run out of space in the Bow Elementary School to accommodate these additional students. You will find a report from the Bow Space Needs Committee that contains their findings and recommendations. Bow has had a history of providing excellent schools for its children. We are now at a point where the community will have to make a substantial increase in financial commitment if it wishes to continue to provide the level of educational excellence that it has in the past.

I wish to express my appreciation for the assistance and cooperation provided me by the principals, teachers, School Board, and citizens of Bow. Without this assistance and cooperation many of the things accomplished would not have been possible. With your help I look forward to another year of continued growth and development of the Bow students.

Respectfully submitted,
TIMOTHY S. GORMLEY
Superintendent of Schools

N.H. School Administrative Unit #19
Bow, Dunbarton, Goffstown, New Boston

PRINCIPAL'S REPORT

BOW ELEMENTARY SCHOOL AND BOW MEMORIAL SCHOOL

The Bow Elementary School and the Bow Memorial School are continually striving to provide for the specific needs of children from the preschool special needs class through the single year high school, grade 9. At Bow Elementary this goal is being achieved through implementation of classrooms that are heterogeneously based and that emphasize cooperative learning strategies and mainstreaming. Each of these learning modalities fosters classroom learning where all youngsters are provided with opportunities to interact with children of varying abilities at their specific grade levels. Lessons are designed to provide the students with assignments and activities that correspond with individual instructional levels. Through cooperative learning, the students work with others of varying interests and abilities in order to share ideas and to serve as peer mentors/models. This model for learning is beneficial for all students.

Bow Memorial School addresses this task by emphasizing the affective domain of education, so vital for emerging adolescents, and balancing that with the cognitive skills development. Classes are grouped heterogeneously with distinction in math and reading where appropriate. The school is organized into grade level interdisciplinary teaching teams which provide consistent expectations for students in their school work and personal development. Middle level learners need a program which facilitates their transition from emerging adolescents into maturing adolescents. Through programs of mainstreaming and varied instructional approaches, students experience individual and cooperative learning tasks. Appropriate grade level content and skills are delivered to each student at his/her ability level.

The Special Education program at both schools has focused on providing the mainstreaming of special education students in the regular education classrooms. Students with special needs receive their instructional program and many of their related services within the grade level classroom. School district special education teachers, specialists, and support staff work with the classroom teachers in providing for the special needs of students with handicapping conditions.

In addition to involvement in individual classroom projects, the students at Bow Elementary are encouraged to participate in cross-grade level and school-wide programs. One cross-grade activity which has proven very successful is Book Pals. Two different grade level classrooms cooperate to read stories to one another and to complete reading related projects. Fourth grade students participated in two national programs — the Artifacts Box and the National Geographic Geography Bee.

School-wide programs included the Young Inventor Celebration and the Education Fair. Bow Elementary students also participated in a school-wide civic project by saving pennies in February to send a Valentine's Day donation to David's House in Hanover.

At Bow Memorial School each grade level complements the core curriculum with study units that take students on ventures beyond the classroom. Some experiences are as basic as the fifth and sixth grade enrichment program which offers additional time in the unified arts program. Others add physical and personal enrichment such as the week-long outdoor education camps offered in grades 6 and 8. The seventh grade implemented an interdisciplinary approach to skills through their Shaker project and the establishment of the Student Store. Ninth graders were involved in Career Day, Apprentice Day, the design and development of hot air balloons, and answered Santa letters for first graders.

In grade five, Drug Abuse Resistance Education (DARE) was introduced. This program and the established "Here's Looking at You 2000" program at other grade levels are integrated as part of the science curriculum. Both programs explore such topics as risks, self-esteem, stress, alternatives to drug use, and refusal skills. These programs are designed to be an on-going part of each student's educational program.

Teachers at Bow Elementary and Bow Memorial worked jointly in the review and revision of the Math curriculum. In conjunction with the curriculum review, a new math series was adopted for the school district. Specific features of the new math curriculum include the use of manipulatives for all classes through grade 8.

At Bow Elementary a new basal reading series was adopted. This series places a strong emphasis on literature, student writing, and cooperative learning. In addition, the teachers have been involved with a process writing workshop. Although the Bow Memorial School has had no new adoption in the areas of Language Arts or Reading, the strategies for approaching reading and writing skills have been examined, and modifications in presenting the current curriculum and using the existing material have been made. Curriculum review in both these areas has been initiated and will continue throughout the coming year.

A federal block grant was received by the Bow School District for the purchase of media hardware and software. The Bow Elementary School District purchased items which included overhead projectors, tape recorders, and record players. At the Memorial School the grant was shared among three areas. Grade 6 purchased videos and filmstrips to assist in implementing an interdisciplinary oceanography program. Videos were also acquired to enhance art appreciation. The addition of a microfiche program for the media center was acquired in the effort to increase the students' ability to do research. This greatly expanded the available resource materials.

The Bow Elementary School has recently applied for a grant to update and expand the classroom libraries at all grade levels, and to provide children's books in a variety of locations throughout the school.

The Bow Memorial School is currently involved in the New England League

of Middle Schools (NELMS) Self-Study Program. This is a self-initiated process which assesses the educational programs provided. It is based on the emphasis of the varied and definitive needs of the student population — middle level learners. The process will help determine the quality of the programs at Bow Memorial by identifying recommendations.

The California Achievement Tests (CATs) were administered to students in grades 2, 3, 4, and 8 in the fall. In grades 2, 3 and 4, students again scored at or above national norms in areas tested. Grade 8 students' scores exceeded their anticipated performance in all areas of the test. The individual and overall scores are used by the teachers to measure student progress. The test analysis also yields data pertinent to the review of subject area curricula.

The Bow PTO continues to be a major support system to the schools. Through the efforts of the PTO, some very fine assemblies have been held at the Elementary School. Additional support has been given to other school projects. One of these programs is the grade 3 and 4 computer keyboarding program. The Elementary School is most appreciative of the new playground that was financed and built by the PTO. At the Memorial School the PTO has been financially instrumental in supporting grade level programs such as the environmental camps and the Student Store. Both schools value the continued support and efforts of the PTO.

For the fourth consecutive year, the Bow Elementary School has received the Blue Ribbon Award for the New Hampshire School Volunteers Program. In addition, Mr. Reginald Terrill, a senior volunteer, was the second place intergenerational recipient in a national school volunteer award contest. The school volunteers have consistently provided services to the Media Center and computer programs at the Memorial School as well as to individual grade levels upon request. The schools are grateful for the time and efforts of the volunteers.

Programs at the Bow Elementary and Bow Memorial Schools are based on current educational research which balances academics with developmentally appropriate tasks. Bow schools believe that the instructional methods and learning tasks implemented in their programs lead to success for students and raise expectations. Students acquire a sense of self-worth, accomplishment, and belonging. There is evidence of concepts and skills in all facets of the programs. From the implementation of individualized educational plans for special needs students to the varied approaches of teacher delivery, our teachers strive to reach each student academically and personally.

The atmosphere of the schools is a prerequisite to learning. There is a pervasive attitude within the schools that professes and values the worth of each individual child.

Respectfully submitted.

PATRICIA McLEAN, Principal
Bow Elementary School

STEPHEN K. O'NEIL, Principal
Bow Memorial School

BOW SPACE NEEDS SUBCOMMITTEE FINAL REPORT WITH RECOMMENDATIONS

At the November meeting of the School Board, the Space Needs Subcommittee submitted our final report.

Findings:

The Bow Elementary School is currently at capacity having experienced a ten (10) percent growth over September 1988 starting enrollments. Based upon the trend we currently see we can expect to have approximately 500 children at the start of school in September 1990.

The existing space at Bow Memorial School is sufficient to accommodate the student population over the next five years although minor alterations may be needed.

Projections beyond a five year period cannot be made with any accuracy at this time. In addition, possible changes to Bow's tuition arrangement are remote. If this arrangement were to terminate, it would have a major impact on the overall District space needs.

Recommendations:

Based upon the aforementioned data we have recommended the School Board submit a special warrant article in the amount of \$1.6 million to finance the additional space to the Elementary School and to finance miscellaneous minor alterations to the Memorial School.

ANGELYN D'AMBRUOSO, School Board Representative

CARLOTTA ROBBINS, Planning Board

THE BOW PARENT TEACHER ORGANIZATION

The PTO meets the first Wednesday of each month at 7:30 p.m. in the Bow Memorial School. The membership is open to the community and the faculty of the Bow Elementary and the Bow Memorial Schools. Our annual membership fee is \$2.00 per family.

One of the goals of the Bow PTO is to serve as a communication link between the schools and the community in order to create a better understanding of the educational objectives of the schools. We also provide assistance for school and community related activities on behalf of the school children of Bow.

The volunteer program sponsored by the Bow PTO is very active in both schools. The elementary school has earned the New Hampshire Blue Ribbon School Achievement Award for the past four years. This special award is presented to schools with outstanding volunteer programs.

Each year we try to add new programs and projects to the ones we already have in place. We strive to benefit all the students in our schools. We do this with the proceeds from our major fundraiser, our two book fairs and the Bow Craft Fair.

This past year we have had several extra fundraisers to benefit our biggest project, the Bow Community Playground. We installed the first phase of the playground in September of 1989 and we plan to install the second phase in May of 1990. Because of the support of the parents and the community of Bow, we will have a new and safe playground that we can all be proud of.

The Bow PTO is very proud of the many programs and projects that we provide for the students of Bow. Our main focus this school year is on the following:

In-school program with Michael Zerphy for elementary students

Family Night with Michael Zerphy

Back to School Night

Bow Craft Fair

Dental Program for both schools

Hearing and vision screening for preschool children

Education Night with Mr. Jim Grant

Computer keyboarding for elementary students

Academic awards and flowers for 9th grade graduation

Financial support for Bow Memorial Band

PTO Scholarship Fund

Otter Lake donation for 6th grade

Teacher and Staff Appreciation Day

Bow Community Playground

School Volunteer programs for both schools

Education Fair programs for both schools

Camp Sargent donation for 8th grade

Sponsor Special Needs Awareness Group

Sponsor Say No To Drugs program

Donations to both libraries for library book purchases

We do hope that you all will continue to support the PTO. If you would like more information about the Bow PTO, please contact a member of the board. Please join us at our next meeting.

Respectfully submitted,

In 1989 the town lost a true friend in Ric Ricard. Ric passed away while doing what he liked best, running. He was committed to the town, especially the youth sports programs. He spent a large amount of time working with children in softball, baseball and basketball.
